**Subject:** 5g workshop/meeting

Dear assembly members: I'm still trying to get updated on this subject of the 5G towers. I was concerned with how many others may be in the same boat I am.

My intentions for setting up a meeting, or gathering is to see if there are even more in my camp of catching up on this information. There seems to be so many facets to this: health concerns, property concerns, quality of life concerns, and is there anything else we the people can do anything about this? We will be gathering at the library at 6:00pm this Thursday night. All are welcome.

Please feel free to message back, or come join us. I have no idea if it's just a small handful of us, or more.

Thank you for your time and efforts.

Regards,

Erica Worhatch
