Subject: RE: PSAB Meeting

Hello all,

I had someone walk in today and request an item of discussion for the next PSAB meeting.

Brian Lynch is concerned with vehicles parking in a high traffic area on S Nordic Drive. The area in question is the inside curve of S. Nordic Drive, across the street from Marian St. his concerns are as follows:

- 1) Vehicles parking inside the curve which on-coming traffic cannot see.
- 2) Pedestrian (when snowing and sidewalks are impassible) and bicycle traffic walking around those parked vehicles in the oncoming traffic lane.
- 3) Vehicles trying to pull in/out of those spots, especially vehicles with boat trailers.

Brian requests that the PSAB look into this and give a recommendation, whether it is a no parking zone (Full time or Part time), or lower speed zone, etc.
He can be reached at 907-518-0211

-Aaron
