

**PETERSBURG BOROUGH
ORDINANCE NO. 2026-12**

**AN ORDINANCE AMENDING TITLE 19 ZONING, OF THE PETERSBURG MUNICIPAL
CODE TO REGULATE WIRELESS COMMUNICATION FACILITIES (WCF) AND OTHER
TOWERS AND TRANSMITTERS**

WHEREAS, the Federal Telecommunications Act of 1996 preserves the authority of local governments to regulate the placement, construction, and modification of personal wireless service facilities to protect the health, safety, and welfare of the community; and

WHEREAS, the Petersburg Borough recognizes the increasing demand for wireless services and the necessity of high-quality telecommunications infrastructure for public safety, education, and economic development; and

WHEREAS, the unregulated proliferation of standalone towers can lead to significant visual blight, degradation of the community aesthetic, and potential impacts on neighboring properties and property values, including “fall zone” risks and creation of nuisances; and

WHEREAS, the Planning Commission has held a duly noticed public hearing and determined that these regulations provide the least intrusive means to achieve the community’s connectivity goals while protecting the public interest.

**NOW, THEREFORE, BE IT ORDAINED BY THE ASSEMBLY OF THE PETERSBURG
BOROUGH, ALASKA, AS FOLLOWS:**

Section 1. Classification: This ordinance is of a general and permanent nature and shall be codified in the Petersburg Municipal Code.

Section 2. Purpose: The purpose of this Ordinance is to establish comprehensive standards for the siting of wireless communication facilities and other towers and transmitters.

Section 3. Substantive Provisions: Title 19, *Zoning*, of the Petersburg Municipal Code is hereby amended as follows. The language proposed for addition is **underlined and bold**, and the language proposed for deletion is in [brackets] and ~~struck through~~.

Chapter 19.58 – Wireless Communication Facilities

19.58.010 – Purpose.

The purpose of this chapter is to establish reasonable regulations for the issuance of a conditional use permit for the placement, construction, and modification of wireless communication facilities (WCF) consistent with the Telecommunications Act of 1996 and applicable law in order to:

- A. Promote the health, safety, and general welfare of the public and the borough;**
B. Preserve the authority of the borough to regulate the location of wireless communication facilities; and
C. Protect residential neighborhoods and the borough's aesthetic character from the adverse impacts of towers.

19.58.020 – Applicability.

Except for facilities and activities exempt under section 19.58.030, this chapter applies to development of WCFs, including, without limitation, placement, installation, construction, modification, and collocation, and applies to existing and new WCFs.

PETERSBURG BOROUGH
ORDINANCE NO. 2026-12

- A. The provisions of this title are not intended to and shall not be interpreted to prohibit or to have the effect of prohibiting personal wireless services as the term is defined in 47 U.S.C. 332(c)(7)(C)(i).
- B. This chapter shall not be applied in such a manner as to unreasonably discriminate between providers of functionally equivalent personal wireless services.

19.58.030 – Exempt facilities and activities.

The following facilities and activities are exempt from this chapter:

- A. A noncommercial antenna.
- B. A radio and television antenna, transmitter, or tower or any other antenna, transmitter, or tower that is not a WCF.
- C. A temporary WCF installed upon the declaration of a state of emergency by federal, state, or local government, or a written determination of public necessity by the borough manager except that such facility must comply with all federal, state and local requirements. The WCF shall be exempt from the provisions of this article for up to one (1) week after termination or expiration of the state of emergency;
- D. Temporary, commercial WCF installed for providing coverage of a special event such as news coverage or sporting event, subject to approval by the director. The WCF shall be exempt from the provisions of this article for up to one (1) week after the end of the special event;
- E. All legally permitted WCFs existing on or before the effective date of this chapter shall be allowed to continue as they presently exist, provided however, that any proposed modification to an existing WCF, including collocation, must comply with this chapter.
- F. Eligible facility requests, and routine maintenance and repairs, that do not meet the definition of a substantial change, provided that any existing conditions of approval of the WCF are met. These activities may also require approval of the state fire marshal and a borough building permit prior to commencement of development. As a condition of any required building permit, the applicant shall provide documentation certifying that the modification will meet radio frequency emission standards established by the Federal Communications Commission (FCC).
- G. Facilities and activities that would be exempt from this chapter under federal law.

19.58.040 – Location preferences.

- A. Locating a new WCF shall be in accordance with the following priorities, one (1) being the highest priority and seven (7) being the lowest priority:
 - 1. Collocated WCF on an existing communication tower;
 - 2. Rooftop WCF;
 - 3. Attached WCF on an existing building;

PETERSBURG BOROUGH
ORDINANCE NO. 2026-12

4. New communication tower located in C-1, C-2, or I-1 district at least 500 feet from a residential district, waterfront, or public park;
 5. New communication tower in I-1 district;
 6. New communication tower in C-1 or C-2 district;
 7. Any communication tower located in an area where the FAA would require air navigation lighting.
- B. An application seeking to vary from the stated priority hierarchy set out in paragraph A above and locate a WCF in a lower-ranked location may be denied unless the applicant demonstrates, to the satisfaction of the planning commission, that, despite diligent efforts to adhere to the established hierarchy, doing so is technically infeasible as demonstrated by a Radio Frequency (RF) Propagation Study certified by a qualified radio frequency engineer, structurally impossible as certified by a professional engineer licensed in the state of Alaska, or commercially impractical or unavailable.

19.58.050 - Development standards for WCFs.

- A. Setbacks. Notwithstanding any other yard setback requirements for each district,
 - a. A communication tower base must be situated on a parcel such that it is set back a minimum of One Hundred Ten Percent (110%) of the total tower height (1x1.1 ratio) from all property lines and the boundary lines of any public road or right-of-way.
 - b. Sensitive area setback. A communication tower base must be situated on a parcel such that it is set back a minimum of Fifteen Hundred (1,500) feet from any property line of a parcel on which is located an existing school, assisted living facility, childcare facility (children's nursery), or hospital.
- B. Separation. No communication tower shall be permitted within one-half (1/2) mile (2,640 feet) of another communication tower.
- C. Minimum number of antenna arrays. A communication tower exceeding 120 feet shall be engineered and constructed to accommodate no fewer than three antenna arrays. A communication tower exceeding 150 feet in height shall be engineered and constructed to accommodate no fewer than four antenna arrays.
- D. Fencing. A WCF shall be enclosed by a minimum seven (7) foot fence or wall with a secured gate. Transmitters and telecommunications control points must be installed in a manner to be readily accessible only to people authorized to operate or service them.
- E. Signs. No sign, flag, banner, or pennant may be attached to a communication tower except that the following shall be posted in a location that is visible from the ground outside the equipment compound:
 - a. A weatherproof sign identifying the party responsible for the operation and maintenance of the communication tower, with a 24-hour emergency contact telephone number.
 - b. Any antenna structure registration number required by the FCC.

PETERSBURG BOROUGH
ORDINANCE NO. 2026-12

- c. Warnings of dangers associated with the communication tower or equipment located at the site.

- F. Lighting. No lighting shall be mounted on or illuminate a communication tower, except when required by the Federal Aviation Administration (FAA). Required lighting shall be equipped with shields or louvers to avoid projecting directly onto surrounding properties.

- G. Height.
 - 1. Subject to paragraph 2 below, the height of a collocated WCF shall not exceed the greater of:
 - a. The maximum building height of the zoning district in which the WCF is located;
 - b. The height of a building or utility pole to which the WCF is attached, including any existing mechanical equipment located on the roof of a building; or
 - c. The minimum height necessary for effective functioning of the WCF, as certified by a qualified radio frequency engineer, but not to exceed:
 - (i) Ten (10) feet above the height of the existing utility pole to which the WCF will be attached; or
 - (ii) Fifteen (15) feet above the height of the existing building to which the WCF will be attached, including any existing mechanical equipment located on the roof.
 - 2. The height of a communication tower shall not be greater than the minimum necessary for effective functioning of a WCF as certified by a qualified radio frequency engineer. For new construction, proposed height should consider required collocations under paragraph C above.

- H. Protrusion Limit. No part of a WCF shall protrude more than 36 inches from the face of the support structure, measured to the outer face of the WCF.

- I. Radio Frequency Emission Standards. Radio frequency emissions from antenna array(s), both individually and cumulatively and considering any other WCF located on or immediately adjacent to the proposed WCF, shall meet radio frequency emission standards established by the FCC.

- J. No Air Navigation Hazard. An Applicant shall submit a determination of no hazard to air navigation for the communication tower issued by the FAA.

- K. Professional engineering plans. The WCF, including foundation and appurtenant attachments, shall be designed by a professional engineer licensed in the state of Alaska to meet relevant site and subsurface conditions, and will be constructed to meet ANSI/TIA-222-G (as amended) and adopted building code structural requirements for loads, including wind, snow and ice loads.

PETERSBURG BOROUGH
ORDINANCE NO. 2026-12

- L. No guy wires. Use of guy wires is prohibited for all communication towers.
- M. Visual impacts. WCFs shall be configured and located in a manner that shall minimize adverse visual impacts on the landscape and adjacent properties, including through use of alternative tower structure or other stealth technologies.
- N. Significant Coverage Gap/Least Intrusive Means. A WCF shall be placed, constructed, or installed only to fill a significant coverage gap in the least intrusive manner available.

19.58.060 – Conditional use permitting process for WCFs.

- A. As of the effective date of this chapter, and excepting exempt facilities and activities under section .030 of this chapter, no WCF shall be sited, placed, built, constructed, installed, collocated, or modified in any zoning district unless permitted as a conditional use and a conditional use permit has been obtained per this chapter and chapter 19.72 of this title. In the event of any conflict between this chapter and chapter 19.72, this chapter shall govern.
- B. The director may, at the director's discretion, require a technical review from a third-party expert, the actual costs of which shall be borne by the applicant, when the director determines that such review would aid the borough's review of the application. Based on the results of the technical review, the director may require changes to the WCF design or location, or submittal of additional documentation, before the application is considered complete. The technical expert review may address any matter deemed to be relevant to determining whether a proposed WCF complies with the provisions of this chapter.
- C. An application, meeting the requirements of section .070 of this chapter, shall be submitted to the director. The director shall review the application for completeness.
 - 1. Incomplete applications shall be rejected and the applicant notified in writing within thirty (30) days of submission. If rejected, the director's decision shall identify the deficiencies in the application, which, if cured, would make the application complete.
 - 2. Once resubmitted following a notice of deficiency, the director will have ten (10) days to identify any missing documents or information consistent with the director's original notification under paragraph 1 necessary to make the application complete.
 - 3. Once an application is deemed complete, the application shall be scheduled for a public hearing before the planning commission per 19.72.060.
- D. Following the public hearing, and notwithstanding the requirements of 19.72.080, the planning commission shall grant or reject a WCF conditional use permit application within a presumptively reasonable period of time, as such is defined under 47 CFR §1.6003, less any tolling periods. If no applicable period of time is established under 47 CFR §1.6003, the period of time shall not exceed One Hundred Fifty (150) days, less any tolling periods.

PETERSBURG BOROUGH
ORDINANCE NO. 2026-12

- E. The planning commission's decision shall be in writing and be based on the compliance of the application with the requirements and conditions of this chapter. The decision of the commission and the reasons therefore shall be entered in the records of the commission and shall be available to the public. A denial of a permit shall be in writing and supported by substantial evidence contained in a written record.

19.58.070 – Conditional use permit application requirements for WCFs.

- A. An application for a conditional use permit for a WCF subject to regulation under this chapter shall be made on a form provided by the borough and include the following information. Additional information may be required under other provisions of this title or requested by the director or the planning commission:
1. Site plan. Consistent with section 19.72.040, applicant shall provide a site plan of the parcel on which the WCF is to be located, with the following information:
 - a. Size of the parcel stated both in square feet and lot line dimensions, and a diagram showing the location of all lot lines;
 - b. Locations of any dwellings and public roads within a radius equal to the height of the proposed tower from its base;
 - c. Location, size, and height of all existing and proposed structures on the parcel;
 - d. Location, size, and height of all proposed and existing antennas and all appurtenant structures, including fuel tanks and generators; and
 - e. Type, locations, and dimensions of all proposed and existing lighting, landscaping, and fencing.
 2. Coverage area. The application shall provide information about the existing and proposed coverage area and demonstrate the significant coverage gap the proposed WCF will fill by submittal of a RF propagation study certified by a qualified radio frequency engineer.
 3. Site justification. An application shall provide supporting documentation that justifies the proposed site in accordance with the location priorities set out in Section 19.58.040, and demonstrates that the means chosen by applicant to fill a significant coverage gap is the least intrusive means available. This should include verification that no existing sites or structures are available for equipment, summary of alternative locations investigated, and an explanation of the technical, structural or commercial impediments that rendered higher-ranked sites infeasible.
 4. Height. An application shall provide supporting documentation that the proposed WCF meets the requirements of paragraph 19.58.050(G).
 5. Visual impacts. An application shall provide an analysis of the potential visual impacts of the communication tower at distances of 500 feet and 1,500 feet from the proposed location, through the use of photo simulations of the communication tower and the wireless communication equipment

PETERSBURG BOROUGH
ORDINANCE NO. 2026-12

that it will support. The analysis shall include, to the extent practicable, the visual impact from multiple vantage points of any adjacent roadways and from all residential zones that are within 1,500 feet of the proposed site. The analysis should include recommendations to mitigate adverse visual impacts of the communication tower on nearby properties.

6. Other information. An application shall include maps, plans, studies, reports, certifications, and other necessary information to show compliance with the other requirements of section 19.58.050.
7. Waiver request. Applicants seeking a waiver under 19.58.090 shall provide supporting documentation justifying the request and demonstrating request is minimum required at the time of application.

19.58.080 - Conditions of approval.

- A. The planning commission shall approve a WCF conditional use permit if the commission finds the WCF conforms to the development requirements of this chapter and the other applicable standards and criteria in this title, including without limitation that the location satisfies the priorities of section 19.58.040, and that the selected site provides the necessary coverage for the applicant's wireless communication services customers with the least intrusive manner available, including consideration of visual impacts on other properties.
- B. Insurance, Performance Guarantee, and Removal Requirements. Every conditional use permit issued under this chapter shall include the insurance, performance guarantee, and removal requirements of sections .100 and .110 of this chapter as express conditions of approval.
- C. Compliance with FCC enforcement orders. Every conditional use permit issued under this chapter shall include as an express condition of approval compliance by the permittee with all FCC rules, regulations, and enforcement orders, including without limitation those relating to radio frequency emissions and interferences.
- D. No action may be taken on a WCF conditional use permit application on the basis of the environmental effects of radio frequency emissions, provided that the wireless communication equipment that will be sited complies with FCC regulations concerning such emissions.

19.58.090 - Waiver.

- A. The planning commission may grant a waiver to one or more of the development standards for WCFs set out in paragraphs 19.58.050(A-H), if it is determined that the applicant has established that denial of a permit or strict adherence to the standards would:
 1. Require a technically infeasible location, design or installation of a WCF, as certified by a qualified radio frequency engineer; or

PETERSBURG BOROUGH
ORDINANCE NO. 2026-12

2. Result in a structurally unsound support structure of a WCF, as certified by a qualified engineer licensed in the state of Alaska; or
 3. Jeopardize public health, safety, and welfare because the current level of service in the proposed coverage area is functionally inadequate for emergency calls.
- B. If a waiver is granted under paragraph A above, the waiver shall be limited to the minimum extent required to avoid the findings of A(1-3) hereof.
 - C. Any applicant seeking a waiver hereunder shall, at the time of submission of its application, provide a detailed description, explanation, and documentation supporting its request for a waiver, demonstrating that it meets the requirements of A above.
 - D. In addition to the circumstances set out in paragraph A of this section, the commission may grant a waiver of the minimum setback requirements in paragraph 19.58.050(A) of this chapter if a qualified structural engineer licensed in the state of Alaska certifies a breakpoint design that limits the fall radius to a lesser area.
 - E. At the director's discretion, technical claims for a waiver, including engineering reports and RF propagation maps, may be reviewed and verified by an independent third-party hired by the borough under 19.58.060B.

19.58.100 - Insurance requirements.

The issuance and continuation of a permit for a WCF that is subject to regulation under this title shall be conditioned upon the permittee securing and at all times maintaining insurance meeting the following requirements:

- A. An insurance policy providing commercial general liability coverage for personal injuries, death and property damage with limits not less than \$1,000,000 per occurrence and \$3,000,000 in the aggregate. The policy shall also contain coverage for environmental damages, including fuel spills, if the WCF contains a fuel tank.
