

PMC Executive Summary April 2026

Mission Statement: Excellence in healthcare services and the promotion of wellness in our community.

Guiding Values: Dignity, Integrity, Professionalism, Teamwork, and Quality

Summary:

Congressman Begich came to visit Petersburg and spent about 2 hours with PMC staff. I would like to thank the Borough for coordinating this visit. We put in appropriations applications to both Congressman Begich and Senator Murkowski for congressionally designated funding. Congressman Begich toured the main campus, and the WERC building. Currently there are no updates from the state on our MRI/WERC certificate of need application. State legislation (HB 131 / SB 124) proposing Alaska's entry into the Nursing Licensure Compact is currently under consideration. Nursing License Compact bill is getting some resistance from the nursing union. The NLC allows a nurse to hold one multistate license and practice in any participating state. Over 40 states participate but Alaska is not one of them. More to come on this topic as it progresses. I will be traveling to Washington DC for the annual AHA meeting mid-April.
