Subject: No Tidal Minor subdivision

Dear Assembly,

I apologize, I did not get a chance to write a formal letter last week. However, I would like to encourage the Assembly to unite with the Planning and Zoning Commission and their continued efforts to work with you, the Assembly and the public on the communication overlay for our community. I ask that you vote to uphold the Planning Commission's decision to not subdivide Borough property for Tidal Network on Haugen Drive.

Also, I understand that the fire department may be needing property for their equipment that needs to be moved from scow bay. I believe that we should assess and safely accommodate the fire departments needs for their equipment before anything else.

Thank you,

Mika Cline
