Subject: Opposing Appeal

I do not support tidal network being able to put up a tower by the firehall...500 ft away from a existing tower and very close to a daycare where my kids attend. What do we want our tourists and visitors to look at when they get off the jet and head for town? Two huge towers side by side? It puts a industrial image on our pretty town. Let alone the potential health risks that are put on our children at the daycare.

Thank you,

Paul Dupree
