Subject: Board of Equalization

Very Short Statement Regarding:
Tlingit & Haida Appeal to the Petersburg Borough Board Of Equalization
August 17, 2026

Petersburg Borough Board of Equalization (BOE):

This is a simple request after 10 months of testimony related to the location of telecom towers in our town.

As it now relates to the placement of a telecom tower near our Fire Hall, please honor the extensive work that of our Planning and Zoning Commissioners have put into this issue...along with the overwhelming amount of work by residents who have researched and shared information in multiple forms....and with the 360 people who signed a statement-of-concern about the locating telecom towers in neighborhoods and near childcare centers and assisted-living facilities. Deny the use of Borough property abutting the Fire Hall for this purpose.
