Subject: Papke's Landing

Good afternoon,

I support the very much needed improvements at Papke's Landing a State of Alaska Facility. I think that the conceptual drawing depicts a great parking area for vehicles but does do much for the several hundred property owners that live beyond Papke's Landing. It does not show a revenue stream to offset the costs to manage and maintain.

This is the first drawing not the final drawing!

I want to speak at the meeting on Monday, June 6, ,2022.
