Please indicate which Board you are interested in: Planning Board

Please explain briefly why you are seeking appointment to this board: I have served for four years as a member of the Pineville Parks and Recreation Advisory Board and as a member of my neighborhood HOA. Under my leadership, we were able to agree to contribute HOA development funds to the Town of Pineville to construct the Jack Hughes connector bridge. This now allows McCullough residents easy, safe access into downtown Pineville, thus strengthening business and commercial activity in the town. I'd like to continue to contribute to the growth and healthy development of our beautiful town so that it's a safe and welcoming place for my children to continue to grow and flourish.

Please describe any professional experience you may have that would be relevant to this board: I am a licensed attorney and a Human Resources professional. I have served on may Boards in both my personal and professional life. Most recently, I served as EVP and Chief Administrative Officer of Piedmont Lithium and as the President, Board of Directors of the Power for Life foundation. Moreover, I recently completed four years as a member of the McCullough HOA, including 3 years as its President.

Please describe any committees, organizations, or other boards you may have participated on or educational background you have that would qualify you for a position on this board: Please see above. Most pertinent would be the HOA leadership position during which we made many planning decisions as our neighborhood was being built out by Pulte, the last developer. We also have been managing an earthen dam failure in our neighborhood in 2023 that has led to a rebuild and eventually litigation against the engineer/builder.

Please tell us anything else about yourself that would be beneficial to this board: I am a rockstar! No, seriously...I offer a fair and pragmatic approach to problem solving and I work hard to build consensus between those with whom I work. Whether it be as a member of my executive leadership team at work or a charitable board of directors, finding the best path forward for the organization I serve is my primary goal.
