

## Jack D. Hughes Park

Today, Jack D. Hughes is a highly used community park. It is used primarily for sports and attracts tournaments and events from all over the county. The current park area, which is about 30 acres, contains 3 baseball fields and a multi-use field as well as bathrooms, concessions, and shelters to serve these facilities. These fields are a great asset to the community, but demand is exceeding the space provided today.

To meet community demands for sports facilities, Jack D. Hughes Park should expand into the 72-acre parcel to the south. This parcel is already owned by the Town. Today, the area is heavily wooded and hilly. The park should include the following amenities:

- **Two new baseball fields and one multi-use field** located in the higher areas of the site.
- **Trails and disc golf** located in the more hilly, natural areas.
- **Two new basketball courts.**
- **New shelters and play areas** near the fields provide space for families to play and relax during games.
- **A restroom and concession building** between the baseball fields.
- **A connection to the McCullough development**, which will include an entry plaza and shelter.
- **Additional parking.** The number of new spaces will be based on the final program of uses and regional use.
