Cell Phone: [REDACTED]

Please indicate which Board you are interested in: Planning & Zoning Board - Alternate

Please explain briefly why you are seeking appointment to this board: I am seeking this appointment as a resident who cares about Pineville's continued vitality, growth and long-term character. My wife and I are Pineville residents also welcoming our first child so our commitment to the local community is strong. I want to contribute to thoughtful planning decisions which balance resident, corporate, infrastructure and town vision priorities for the best for all long term.

Please describe any professional experience you may have that would be relevant to this board:
My professional background spans various industries working in operations, governance, transformation, technology and people leadership. I bring deep experience evaluating complex information, balancing competing priorities, and help organizations make practical decisions. I worked professionally for Habitat for Humanity in Palm Beach County, FL, so am familiar with the Planning & Zoning process as it relates to residential construction so have direct connection to the predominant issues facing the board.

Please describe any committees, organizations, or other boards you may have participated on or educational background you have that would qualify you for a position on this board: I serve as Vice President and Secretary of the Chadwick Park HOA in Pineville where I have been involved in post-developer transition, vendor evaluation, reserve planning, financial review, governance processes, and resident communication. I have also held/hold volunteer leadership positions with organizations like The Mint Museum, Habitat for Humanity of the Charlotte Region, The Isabella Santos Foundation, Charlotte Latin School and ForStudents.

Please tell us anything else about yourself that would be beneficial to this board: I would be committed to bringing a resident's perspective framed with governance and pragmatism. Through leadership in a newer Pineville development, I have seen how town standards, roads, stormwater, landscaping, maintenance responsibilities, and communication have direct impact on our residents. If appointed, I would prepare thoroughly, ask insightful questions and partner with staff and fellow board members for the betterment of the community.
