

Midcontinent Communications Franchise Request for Pipestone

Supplemental Background Information for Franchise Discussions

April 13, 2026

City of Pipestone
c/o Stephanie Labrune
119 2nd Avenue SW
Pipestone, MN 56164

Re: Midco® Franchise Application

Dear Mayor Delaney:

Midcontinent Communications® (Midco) is seeking authorization from the City of Pipestone to construct and operate a state-of-the-art telecommunications system within city limits. Midco initiated the franchise application process for the city during our meeting on October 3rd.

Our proposed fiber network build out will provide advanced technology service offerings, including fiber internet and internet protocol television (IPTV) to Pipestone residents and businesses.

Midco is excited about the opportunity to bring our smooth and reliable fiber network technology to all of Pipestone. We look forward to working cooperatively with city leadership and are happy to respond to any questions or provide any additional information the city may require.

Please reach out to me with any inquiries you may have.

Sincerely,

A handwritten signature in blue ink, appearing to read 'Andrew Curley'.

CITY OF PIPESTONE, MINNESOTA

REQUEST FOR PROPOSALS OFFICIAL APPLICATION FORM

Applicants interested in submitting a proposal for a cable communications franchise shall submit the following information as required by Minnesota Statutes Section 238.081, subd. 4, to the City of Pipestone, Minnesota ("City") on or before 4:30 p.m. on April 13, 2026.

- A. Plans for channel capacity, including both the total number of channels capable of being energized in the system and the number of channels to be energized immediately.

RESPONSE: Applicant uses an IPTV system. There will be approximately 350 channels initially available (some duplication between SD and HD) with an unlimited number of channel capacity.

- B. A statement of the television and radio broadcast signals for which permission to carry will be requested from the Federal Communications Commission.

RESPONSE: See Response to #1 above. Applicant has no program carriage agreements with the FCC. All programming carried has either a signed carriage or retransmission consent agreement.

- C. A description of the proposed system design and planned operation, including at least the following items:

1. The general area for location of antenna and headend, if known;

RESPONSE: Midco's Sioux Falls, SD headend will feed the Pipestone system.

2. The schedule for activating cable and two-way capacity;

RESPONSE: Two-way activation, to those locations requiring it, will be activated contemporaneously with the system activation.

3. The type of automated services to be provided;

RESPONSE: Midco hires local CX Professionals within our footprint and service area. We do not utilize outsourced vendors or offshore support. Midco provides support through various channels, including web chat, social media platforms, and SMS. Our main support channel is the IVR which is available 24x7/365, where the average wait time is under 30 seconds. We also offer a variety of self-service options through midco.com/myaccount and our digital and IVR channels. Each automated self-service option is designed to be used by the preference of the

customer, and all have a path to a CX Professional to assist if the solution is not achieved through the self-service path.

4. The number of channels and services to be made available for access cable broadcasting; and

RESPONSE: Applicant will provide at least three specially designated channels for use by the public, local educational authorities, and the government, consistent with the terms of the incumbent franchise agreement.

5. The schedule of charges for facilities and staff assistance for access cable broadcasting.

RESPONSE: There is no charge for our standard customer care services including troubleshooting via the telephone, online chat, or an on-site technician, if necessary. As our video product is IPTV based and delivered via wi-fi, there is no need for cable outlets such as for traditional video receivers.

- D. Terms and conditions under which particular service is to be provided to governmental and educational entities.

RESPONSE: Applicant is willing to provide “in-kind” services consistent with the incumbent franchise agreements.

- E. A schedule of proposed rates in relation to the services to be provided and a proposed policy regarding unusual or difficult connection of services.

RESPONSE: See Exhibit B for current rate card. Applicant will commit to non-standard installation definitions and construction cost-sharing consistent with the incumbent franchise agreement (e.g. drops in excess of 500 feet).

- F. A time schedule for construction of the entire system with the time sequence for wiring the various parts of the area requested to be served.

RESPONSE: Applicant will provide City staff with construction schedules throughout the construction process. A publicly available map of the construction phasing will also be made available online. Applicant’s current schedule calls for the bulk of construction to take place in 2026.

- G. A statement indicating the applicant’s qualifications and experience in the cable communications field, if any.

RESPONSE: See attached Booklet

- H. An identification of the municipalities in which the applicant either owns or operates a cable communications system, directly or indirectly, or has outstanding franchises for which no system has been built.

RESPONSE: Applicant has 166 active video franchises in Minnesota. Janesville is the most recently enacted with construction planned in 2026. The closest geographically are:

- City of Adrian – Sarah Lenz, City Clerk, 507-483-2849
- City of Canby – Bonnie Merritt, City Administrator, 507-223-7295

- I. Plans for financing the proposed system, which must indicate every significant anticipated source of capital and significant limitations or conditions with respect to the availability of the indicated sources of capital.

RESPONSE: Applicant will be utilizing its existing private capital for the proposed system.

- J. A statement of ownership detailing the corporate organization of the applicant, if any, including the names and addresses of officers and directors and the number of shares held by each officer or director, and intercompany relationship, including the parent, subsidiary or affiliated company.

RESPONSE: See Exhibit D

- K. A notation and explanation of omissions or other variations with respect to the requirements of the proposal.

RESPONSE: N/A

Substantive amendments may be made to a proposal after a proposal has been submitted only upon approval of the City and before the award of a franchise. All proposals must be notarized and must include responses to the above information requests, as well as the information requested in the Notice by the City of Its Intent to Franchise a Cable Communications System, available from the City upon request. The City reserves its right to request additional information of any applicant at any time during this process.

Pursuant to Minnesota Statutes Section 238.081, subd. 8, applicants are required to reimburse the City for all necessary costs of processing a cable communications franchise. Each application shall include an application fee of Twenty Thousand and No/100 Dollars (\$20,000.00) in the form of a check made payable to the City of Pipestone, Minnesota. Any unused portion of the application fee shall be returned to the applicant and any additional fees required to process the application and cable communications franchise beyond the application fee, shall be assessed to the applicant as a condition in any franchise adopted by the City.

Experience & Capabilities

About Midco

Founded in 1931, Midco is a telecommunications leader redefining connectivity. We maintain market leadership by providing exceptional customer experiences using the region's most reliable owned and operated fiber network spanning over 21,000 miles. We deliver high-capacity, high-quality network and communications services to more than 1 million residential and business locations – while growing our footprint and futureproofing our connections at scale.

Midco's vision is clear: to empower, inspire and innovate for the people of the Midwest. We create innovative solutions that fit our customers' needs. We empower small businesses to look beyond their current reach. We inspire communities through grants from the Midco Foundation, as well as local sponsorships and employee volunteering. We believe our team members – and our company – thrive when we give back and serve our local communities.

Midco is 1,900 employees strong – located in communities large and small – with three key locations including our corporate office in Minneapolis, MN, and operations centers in West Fargo, ND, and Sioux Falls, SD.

Midco is a privately owned company driven by our mission to be the best communications company in the country for our neighbors, team members, partners and communities. Starting from small beginnings as a local theater company, Midco is now a leading provider of reliable, high-speed internet via fiber technology to nearly 500,000 business and residential customers. Our relentless pursuit of 10G technology transforms how our communities live, work and connect, bringing us closer to a more interconnected world – delivering multi-gig speeds and ensuring advanced, high-speed internet access for all.

Services

Innovation, reliability and local service. From scalable internet to flexible phone solutions, we specialize in exceeding expectations with extraordinary, user-friendly technology.

- TV

We are the top provider of reliable, high-speed internet via fiber and fixed wireless technology in the areas we serve, but don't just take our word for it. Ookla, a renowned authority in internet speed and reliability, has given Midco a major distinction in 2024 – with specific nods to Midco speeds, low latency and internet consistency in communities throughout our five-state footprint. Primary callouts include providing the fastest internet speeds in many of our major markets.

We also deliver TV services including Midco Sports and Midco Sports Plus, data center and advertising services, plus wholesale networking solutions.

Midco Fiber Network

Midco owns, operates and maintains more than 21,000 miles of core network fiber within a five-state area. The Midco Fiber Network is path-diverse – and designed and supported to maintain a 99.999% availability rate at its core. As shown in **Exhibit A – Midco Network Map**, our network is well connected to the world, with interconnect and peering arrangements with national, regional and local providers.

Our fiber network penetrates deep into our communities via fiber-to-the-home (FTTH) or premises (FTTP). This network architecture provides a high-bandwidth, cost-effective, efficient and flexible connectivity with a stable connection. All Midco products and services are managed and distributed via the FTTP network, which is then aggregated and routed via the core network.

We continuously augment our network to provide the necessary capacity to achieve the performance guaranties in our service level agreements for business and government fiber customers. These enhancements occur in 100 Gbps increments, and our current capacity is scalable to 8 terabits per second to meet future needs.

Midco's fiber network is also MEF (Metro Ethernet Forum) 3.0 Carrier Ethernet (CE) certified to better support our business partners with dependable services. The MEF 3.0 CE Certification is the industry's highest standard for performance.

Fiber Forward Investment

In 2021, we initiated Fiber Forward[®], a \$500 million investment to grow and enhance our fiber network and bring multi-gig symmetrical speeds to our markets. This is in addition to more than \$200 million in investments Midco has made on network infrastructure upgrades to enhance internet, television and competitive voice services for customers since 2010. We are making steady progress toward expanding and evolving our network to remain positioned ahead of consumer needs and maintaining our network long-term.

Fiber Forward means:

- Improved network reliability
- Reduced maintenance, truck rolls, and customer calls
- A path forward to multi-gig symmetrical speeds
- Even lower latency and jitter

In 2026, Midco's focus will be to provide ubiquitous network and service offerings by going "Beyond Gig" for our customers. This means we will be going beyond 1 Gig service and deliver multi-gig speeds to business, residential and multi-dwelling unit (MDU) Midco customers throughout a five-state service footprint.

Customer Support

Our customer support and field teams are dedicated to swift, first-time-right problem resolutions. This customer-centric approach ensures that everyone receives efficient and personalized support tailored to their unique problem while enhancing operational uptime and overall satisfaction.

Midco provides 24/7 support via phone, and we also offer contact options through live, secure chat and social media. Both residential and business customers have access to our robust self-help website and tutorials. For residential customers, we offer flexible appointments in 15-minute windows, making it easy to find a time that works for busy schedules.

Local engineering staff will care for the Pipestone network and facilities day-to-day, as well as any construction needed post-buildout. Midco has field operations centers throughout our footprint and maintains warehouse stock in 21 locations in order to respond quickly should a network issue occur.

Our Sioux Falls office houses the Midco Network Operations Center (NOC), which monitors the network 24/7. This team of experts works closely with field and engineering staff on our network node health

maintenance program. We have a strong emphasis on proactive network maintenance and augmentation to stay ahead of customer growth, demands and needs.

Community Involvement

Ambitious, imaginative and positive are just some of the qualities we're proud to live up to at Midco. We're dedicated to inspiring the people of the Midwest – including in the ways we get involved where it matters. Whether it's fighting food insecurity, supporting programs for kids, or investing in art, music, education and family services, we're doing our part to give back to the communities we call home.

How we give back:

- Sponsorships and naming rights: Midco sponsors more than 175 organizations, programs and events across the Midco service area.
- Events: We are a part of more than 100 events each year.
- Public service announcements: Around one-fourth of Midco's ad inventory is gifted PSAs – a \$14 million value in 2021 alone.
- Midco Foundation grants: Each grant ranges from \$1,000 to \$5,000 and helps local organizations make a lasting impact in their communities.
- Public Wi-Fi: Temporary and permanent public Wi-Fi is provided for free during community events at local gathering places.
- United Way: Midco provides corporate sponsorships to eight local United Way chapters across our footprint.
- ACTS: This Midco program empowers team members to get involved in their community. Every Midco employee receives eight hours of Volunteer Paid Time Off to be used at an ACTS event.

Our People

Leadership: Senior Executive Team

Pat McAdaragh | Chair & CEO

Pat McAdaragh has been actively involved with all aspects of Midco since 1981 and has held several key positions within the company, including Chief Operating Officer, Director of Treasury Operations and Corporate Controller. He has been instrumental in transforming Midco into a regional communications company that connects more than 400 communities with a fiber-optic network spanning 15,000 miles. Midco currently serves more than 500,000 homes and businesses in Kansas, Minnesota, North Dakota, South Dakota and Wisconsin. Pat received a bachelor's degree in accounting from Augustana University in Sioux Falls, where he serves as the Chair on the Board of Trustees. He is also Chair of NCTA, the Internet & Television Association, and serves on the Boards of CableLabs and C-SPAN.

Steve Grosser | Vice Chair & EVP

Steve Grosser joined Midco in 1990 as Controller and in 2001 became Chief Financial Officer before transitioning to his current role as Vice Chair and Executive Vice President. During his time at Midco, Steve has been involved in all holdings including internet, cable and phone – plus past businesses focusing on theatres, radio, broadcast TV, satellite teleport and video rental. Prior to joining Midco, he worked at Grant Thornton LLP in Minneapolis and is a CPA. Steve and his late wife, Liv, founded Bien Aimé Farm which offers equine-assisted learning as well as other support services to adoptive families. A native of Cokato, MN, Steve earned a bachelor's degree in accounting from St. Cloud State University.

Scott Anderson | EVP & MMI Board Secretary

Scott Anderson joined Midco in 2012 after previously representing the company as outside counsel for 19 years, assisting primarily with mergers and acquisitions, contract negotiations and general corporate matters. He worked in the management information systems division of a national accounting firm, prior to earning his law degree. During his time at Midco, Scott was responsible for legal, government relations and regulatory finance functions at the company. He earned a bachelor's in economics and business administration from Augustana University, an MBA from Southern Methodist University and his JD from the University of Minnesota. He has served on the boards of several non-profit organizations and currently serves on the Board of Directors of Midcontinent Media, Inc., Midco's parent company.

Ben Dold | Chief Operating Officer & President

Ben Dold leads the operations function for Midco which includes the Field Operations, Construction, Supply Chain, Business Operations, Customer Care, Sales, Marketing and Strategy & Growth teams. In his role, Ben is focused on providing a great customer experience and helping the organization achieve its mission to be the best communications company in the country for its customers, team members, business partners and communities. Prior to joining Midco in 2010, Ben worked in corporate finance and strategy

in the CPG and distribution industries. Ben earned an MBA from St. Cloud State University and a bachelor's degree in economics from St. John's University. In 2015, he was named to Prairie Business Magazine's top 40 under 40. Ben is a graduate of the Leadership Sioux Falls program and serves on the board of the St. Francis House, a homeless shelter in Sioux Falls.

Kent Johnson | Chief Financial Officer

Kent Johnson oversees all finance functions, including accounting, budgeting, financial planning and analysis, audit, billing, treasury, financial analytics, taxes, facilities and risk management at Midco. Prior to joining the company in 2009, he served in controller roles at a building materials company and in the financial software industry, as well as an auditor at an accounting firm. Kent earned his associate degree from Waldorf College and his bachelor's in accounting from Minnesota State University in Mankato. A sports enthusiast, Kent has been a long-time youth football coach.

Ann McGlennen | Chief Human Resources Officer

As Midco's Chief Human Resources Officer, Ann leads the talent acquisition, HR business partners, learning and development, employee relations, total rewards and corporate communications teams to align human resources and people strategies with long-term, enterprise-wide goals while creating an optimal work environment leading to strong business outcomes. Prior to joining Midco in 2017, Ann had a progressive 24-year career with Target Corporation, serving in a variety of human resources leadership roles in both field operations and corporate headquarters. She was a key leader who consistently delivered results by successfully aligning human resource strategies with business objectives. Ann is the Midco Foundation Board Chair, is a member and Director-At-Large for The WICT Network, serves on the C2HR – Content and Connectivity Board and is a member of SHRM. Additionally, she is also on the board of Directors for International Renaissance Festivals, Ltd. Ann graduated with honors from The American University in Washington, DC, with a bachelor's degree in urban affairs.

Leadership: Growth & Marketing

Shea McAdaragh | Senior Vice President of Strategy and Growth

Shea McAdaragh leads the strategy and growth team, focusing on capital allocation and Midco's longer-term strategies for growth and product development. Shea joined the Midco team in 2017 and brings experience from the consumer-packaged goods and agriculture industries. He earned a degree in economics from the University of Minnesota and an MBA with a focus in marketing and finance from the University of Michigan Ross School of Business. He is an advocate for the region that Midco serves, being born in Sioux Falls, growing up in Minnesota and having lived for a summer in the Fargo area.

Erin Ostler | Senior Vice President of Sales

Erin Ostler leads the business, properties and advertising sales teams, and our 13 retail Customer Experience Centers. Erin is a dynamic and accomplished sales leader who is passionate about building

high-performing teams. She specializes in fostering strategic customer partnerships in complex industries that often involve buy/sell relationships.

Erin, who joined Midco in 2015, has more than 25 years of experience in the technology industry. She spent 16 years at Sprint where she held multiple executive management roles in business, emerging and wholesale solutions groups. Prior to Sprint, she founded two successful startup technology firms specializing in expanding hospitality and business profit centers. She holds a bachelor's degree from Lawrence University in Wisconsin.

Jeannie Thurston | Senior Vice President of Marketing

Jeannie Thurston is the Vice President of Marketing at Midco, where she is a driving force in creating impactful brand awareness. Leading the way in integrated communications, marketing strategies, digital initiatives and social impact programs, she takes a customer-centric approach to fuel demand and inspire loyalty across all business units. Jeannie's diverse background in inbound sales, telecom support and creative services has given her a comprehensive understanding of Midco's operations. Jeannie holds a bachelor's degree in mass communications from South Dakota State University. She volunteers as a coach for EmBe's Girls on the Run program and Big Sioux girls' volleyball teams, is a Harrisburg Economic Development Corporation board member and past graduate of Leadership Sioux Falls and The WICT Network's Rising Leader program.

Leadership: Legal & Government Relations

Patrick McCann | Senior Vice President of Legal & General Counsel

Patrick serves as Midco's General Counsel. He is responsible for contract review, regulatory compliance, transactional work and litigation assistance, as well as representing the legal department by collaborating on project committees. Patrick joined the Midco team in 2022 after working as a Magistrate Judge for South Dakota's Unified Judicial System. Prior to the bench, Patrick served as Codington County State's Attorney. Patrick earned a bachelor's degree in political science from the University of South Dakota and a JD from Creighton University.

Andrew Curley | Sr. Director of Government Relations

Andrew Curley leads Midco's government relations team and is responsible for all government relations efforts at the local, state and federal level. He represents the company before government bodies and develops strategic, external partnerships on behalf of Midco. Prior to joining Midco in 2019, Andrew spent nearly a decade in government and political advocacy work. He has a bachelor's degree in political science from St. John's University in Collegeville, MN. Andrew is a graduate of the Leadership Sioux Falls program and is an active community leader, serving as a member of both the Minnesota and Wisconsin Cable Communications Associations' Boards, the EmBe Board, the Greater Sioux Falls Area Chamber of Commerce Issues Management Council, and the Sioux Metro Growth Alliance Member Advisory Board. In 2025, Curley was named to Prairie Business Magazine's top 40 under 40. Having

been born in Sioux Falls, raised in Grand Forks, and educated in Minnesota, he has a deep appreciation and knowledge of Midco's regional footprint.

Leadership: Community Relations

Paige Pearson Meyer | Vice President of Corporate Communications

Paige Pearson Meyer is the company's spokesperson and leads the corporate communications and community relations teams. She is responsible for executing internal communications, crisis communications, executive team thought leadership and sponsor partnerships throughout the company's footprint. Paige joined the Midco team in 2016 after working as the Communications & Recruitment Manager at a medical software company. Prior to that, she was a news and sports journalist for TV stations in Sioux Falls, Green Bay and Eau Claire. Paige earned a degree in sports broadcasting from Indiana University. Paige has graduated from the Leadership Sioux Falls, Leadership South Dakota and MDA Functional Leadership programs. She serves on the Downtown Sioux Falls, Breathe Bravely and Midco Foundation boards. Paige is a mentor for the EmBe Women's Leadership Program, an advisor to C2HR and a member of The WICT Network.

Leadership: Technical Expertise

Kalyan Boinapalli | Senior Vice President of IT

Kalyan Boinapalli joined Midco in 2008, and in 2020 was named Vice President of IT Enterprise Architecture. He champions and leads data, application and system architecture at Midco. Kalyan has nearly two decades of experience in information systems and software development and works across the company on projects focused on enhancing the customer experience. He earned a Master of Science in information systems from Dakota State University and a bachelor's degree in computer science from St. Joseph's College of Engineering in India. Kalyan holds several industry certifications, including ITIL Foundation Certification in IT Service Management and Microsoft and Oracle certifications.

Bill Chatwell | Senior Vice President of Technology

Bill Chatwell leads the Video, Voice, and Technology Integration teams at Midco with the overarching responsibility to innovate, design, deploy and sustain the best communications products possible for Midco customers. Bill joined the Midco team in 2006 and previously held the positions of Director of Video System, Video Systems Manager and Digital Video Engineer. Prior to Midco, he worked at Sencore Electronics for nine years in various roles including Digital Video Application Engineer. Bill also served on active duty in the U.S. Navy for six years, along with an additional 15 years in the Navy Reserve. He received his technical education from the U.S. Navy, South Dakota State University and earned an associate degree in applied management from National American University. Bill also serves

on the board of directors for the Dakota Territory chapter of the Society of Cable Telecommunications Engineers.

Cole Mack | Vice President of Field Engineering & Construction

Cole Mack is the Vice President of Field Engineering and Construction. He oversees all field engineering and construction, working closely with the other teams to ensure intellectual and practical alignment. Cole first joined Midco in 2004 as a maintenance technician in Grand Forks. He returned to Midco in 2009 when the company acquired a system in Bemidji from Charter. He has played a key role in the Network Node Health program to better focus on reliability and proactive maintenance. Mack received a degree in telecommunications from Wadena Technical College in 2002.

Steve Mattern | Senior Vice President of Field Operations

Steve Mattern manages field operations throughout Midco's footprint, overseeing the technical operations, technical training, field ops analytics, dispatch and our plant maintenance teams. These teams are responsible for customer fulfillment, network health, outage restoration, employee development and analytics supporting strategic planning and execution. Steve is known for fresh ideas and has been instrumental in the development and mentoring of many current managers at Midco. He has been involved in several large-scale network expansion projects, network upgrades, facility projects, and strategic initiatives throughout his tenure. He joined Midco in 2002 as a field technician in Grand Forks and relocated to Fargo as a general operations manager in 2014, was promoted to Director of Field Operations in 2018, before moving into his current role in 2022. Steve holds a degree in telecommunications from Northland Community and Technical College.

Financial Qualifications

Confidential financial qualification information is provided in a separate document.

Channel Lineups

Midco anticipates offering customers in Pipestone variety of entertainment choices from our channel lineup, similar to what's currently offered in Adrian, MN. Each video package comes with TV Everywhere online streaming of networks in the respective package – as well as a host of other valuable features based on a customer's selection.

The current Adrian, MN, channel lineup follows on the next two pages. Current and interested customers can view it anytime at Midco.com/ChannelLineups.
