

## Agenda Item - Park Signage Presentation

### Agenda Title:

- Park Signage Presentation

### Department/Contact Person:

- Parks & Facilities - Justin Wieberg

### Background Information:

- In 2018, the Park Board discussed ideas of how to increase awareness and utilization. The City's goal was to create wayfinding signage with consistency/branding. Pleasant Hill Historic District Design Committee came up with a design for signage in the downtown area. The Park Board liked signage and approached them by utilizing similar signage. The Design Committee designed the City Street signs and was approved by the Park Board.

### Financial Information:

- We are asking for the support of the City Council to get this project off the ground, which would be \$4,960.

### Staff Recommendation:

- City staff recommends approval of this signage and work with the Design Committee to print and install.

### Attachments:

- Slideshow presentation is attached.
