

## Agenda Item Cover Sheet

### Agenda Title:

- Presentation on possible regulations for parking near mailboxes.

### Department/Contact Person:

- Kristen Ayers - Assistant City Administrator

### Background Information:

- Last year, the United States Postal Service reached out to the City with concerns for their ability to provide mail service due to residents parking in front of, or too close to mailboxes. They have requested that the City Council create an ordinance that would restrict parking within 50 feet of mailboxes.
- The purpose of this agenda item is to provide a brief informational presentation to the City Council to help guide a discussion around possible ordinance changes. The presentation provides an overview of neighboring cities' ordinances, as well as a discussion on the potential effects to street parking if this request is approved.

### Financial Information:

- There is no financial impact from this agenda item.

### Staff Recommendation:

- Staff hopes to receive feedback from the City Council on whether or not they are interested in updating the current "no parking" ordinance to include language on restricting parking near mailboxes.
