PROBLEM IDENTIFICATION

Speed and aggressive driving can be any one of us, when we make the choice to drive over the speed limit; change lanes several times in a short distance and/or follow too closely. Aggressive driving is a costly decision, often made in an instant, but can have lifelong consequences. According to the National Highway Traffic Safety Administration, aggressive driving is when an individual commits a combination of moving traffic offenses so as to endanger other persons or property. During the last five years, the combination of aggressive driving behaviors contributed to 51 percent of fatalities and 45 percent of serious injuries in Missouri. Speed-related conditions, including exceeding the speed limit and too fast for conditions, accounted for the most fatalities of all aggressive driving behaviors. Thirty-six percent of all Missouri fatalities over the last five years were speed related.

Cass County ranks 12th in speed related crashes. The Pleasant Hill Police Department investigated 345 total traffic crashes during the current reporting period. Of those 345 traffic crashes 42 were speed involved traffic crashes. Of those 42 crashes 14 were personal injury traffic crashes.

The Pleasant Hill Police Department investigated 87 distraction-involved traffic crashes during this report period.

GOALS/OBJECTIVES

Core Performance Measure Goals

1. Based on an annual average increase of 7.49 percent in speed/aggressive driving-related fatalities from 2014 to 2018, Missouri is projecting a five-year average of 343.7 speed related fatalities by December 31, 2021.

The Pleasant Hill Police Department will continue to enforce hazardous moving violations along 7 Highway and throughout the city on the secondary roadways. The Pleasant Hill Police Department continues to believe that through aggressive enforcement and high visibility vehicle stops that this should start to force the hazardous moving violations lower as well as the distracted involved traffic crashes.

PROJECT DESCRIPTION

The Pleasant Hill will continue to evaluate and develop plans which target high crash locations. The patrols will aggressively enforce traffic laws pertaining to the distracted driver/ inattentive driver in order to reduce the amount of traffic crashes .

The high crash locations for Pleasant Hill are 7 Highway followed by city streets. High crash months are February, May, August and December. The high crash day of the week is Monday. The high crash times of day are 0700-0759 hours and 0900-0959 hours.

PROJECT EVALUATION

The MHTC will administratively evaluate this project. Evaluation will be based, at a minimum, upon the following:

1. Law enforcement compliance with state UCR, Racial Profiling, and STARS reporting requirements (law enforcement contracts only)
2. Timely submission of monthly reimbursement vouchers and appropriate documentation to support reimbursement for expenditures (i.e., personal services, equipment, materials)
3. Timely submission of periodic reports (i.e., monthly, quarterly, semi-annual) as required
4. Timely submission of the Year End Report of activity (due within 30 days after contract completion date)
5. Attaining the Goals set forth in this contract*
6. Accomplishing the Objectives* established to meet the project Goals, such as:
 - Enforcement activities (planned activities compared with actual activities)
 - Programs (number and success of programs held compared to planned programs, evaluations if available)
 - Training (actual vs. anticipated enrollment, student evaluations of the class, student test scores on course examinations, location of classes, class cancellation information)
 - Equipment purchases (timely purchase of equipment utilized to support and enhance the traffic safety effort; documentation of equipment use and frequency of use)
 - Public awareness activities (media releases, promotion events, or education materials produced or purchased)
 - Other (any other information or material that supports the Objectives)
7. The project will be evaluated by the Highway Safety and Traffic Division through annual crash analysis .

Evaluation results will be used to determine:

- The success of this type of activity in general and this particular project specifically ;
- Whether similar activities should be supported in the future; and
- Whether grantee will receive funding for future projects.

*Evaluation and requests to fund future projects will not be based solely on attaining Goals and/or Objectives if satisfactory justification is provided.

The Pleasant Hill Police Department will evaluate traffic crashes and determine where the best possible location for enforcement should be conducted. Pleasant Hill Police Department will have 2 H.M.V. patrols each month in an attempt to lower H.M.V, Speed, and distracted traffic crashes.
