

One more thing to add to Tuesday agenda (since I will not be there) in addition to land Use Plan email just sent.

Planning also addressed historic designation for both school buildings – Tollgate and the Admin Bldg. I am in favor of this, but we need to consider individual local designation, or non-contiguous addition to the district, as we did with the African Cemetery. It may also make sense to wrap the train station into this at the same time. For discussion on Tuesday.

Thanks,

Eric
