Re: Monthly Report – September

Summary

We are continuing to work on the hangars at the airport that were converted into a residential use(s). Mortimer's Road House has submitted a contract for an engineer to provide signed and sealed drawings. We have not received anything drawings as of yet. Will send a follow-up letter to them. We are almost finished with the draft for the new building code. Hopefully in November we will be complete. A couple items remain to be resolved. I had met with the owner of the property at 76/173 regarding the garage sales at that property. The number of permits, inspections and code enforcement equaled 190. This number decreased from 252 last month to 190 this month.

Below are the statistics for the month of September.
