Public Works Report – June 2026

Roads & Infrastructure

- Cold patched a few problem areas around the Village.
- Marked pavement and sidewalks for summer MFT repairs.
- Added beacon lights to the Poplar Grove Road stop sign and stop-ahead signs on Woodstock, Orth, and Whiting roads.
- Removed downed trees on Orth Road, Woodstock Road, and Briarwood after storms.
- Repaired damaged speed limit signs in a few locations throughout the Village.

Water & Sewer

- Repaired multiple water services in Westergren. We are running into issues with old taps for the water service lines as New Leaf continues to develop the neighborhood. Per the Builders Agreement, Public Works will be responsible for these repairs as they come up during the building process.
- Cleaned the drainage swale on Main Street and another on Beech Bay.
- Repaired damaged outlet pipe at NWWTP.
- Pulled and cleaned pump at Collection Point lift station.
- Repaired the swale and inlet to the Village Hall detention pond and added jaw rock to prevent washouts.
- Restored areas where service repairs were completed.

Facilities & Equipment Repairs

- Installed temporary A/C in the SWWTP control room.
- Painted the curb at Village Hall for the no-parking zone.
- Sprayed and pulled weeds at Village Hall.
- Poured pads and installed benches at Village Hall.
- Installed new desk and cabinet in Karri's office.

Parks

- Continued weekly mowing.
- Sprayed all parks with the second weed treatment of the year.

- String trimmed all parks.
- Sprayed fence lines at Lions Park.
- Trimmed Lions Park trees.

Administration & Planning

- Staff prepped for Neighbor's Night.
- Surf and Frontier began their respective fiber optic installation projects. Zach has been tasked with locating Village facilities for these projects and spent much of the month completing mark ups ahead of the installs.
- New Leaf has continued first-phase development in Westergren.
- Worked with engineering, legal, and code enforcement on ongoing easement and drainage issues.
- Worked with the Boone County Engineer regarding the 2027 Poplar Grove Road project.
- Sold 2011 Chevy Silverado via Ibid.

As always, please contact me with any questions or concerns. I am available to provide additional details on any past, current, or upcoming projects.
