We take pride in our ability to “layer” the sky with vivid surprises at varying heights and widths, painting the entire sky into beautiful scenes of color. Your show will be unique and precise, with a timeline that will include an opening mini-finale of bursts to kick off the display, followed by a body filled with unique scenes and special effect barrages, and concluding with a grand finale that will light up the sky like nothing your audience has ever seen!

- *Maximum shell heights will vary for each individual display.
- On average, shells will reach 100' of elevation for every inch in shell diameter.
(Example: 2" shells will reach approximately 200' in elevation.)
