April 2021

Clerk Monthly Report

General:

PERMITS PERMITS AND MORE PERMITS. April was super busy with permits and the election. The Clerks office has been busy with everything that comes with a Mayor change.

FOIA:

We had 2 FOIA request in the month of April. The FOIA requests were the following:

1. Richard Radecki asking for any liens code violations or inspections at 201 S. State Street
2. Attorney Jody Beilke for Bleyer well + Pump asking for all notices, correspondence, maps, drawings and the life to Oak Lawn Estates regarding Village water lines and connection there to. This was later no longer needed.

Permits:

For the month of April, we had 47 residential, 4 new home permits submitted, and 3 new mobile homes permits for a total of 54 permits. This is a record-breaking month for us. Lots of re-roof, fences, and decks. We are starting to see pools and driveways as well.

Code:

For the month of April, we sent out 1 code violation letters. They have come into compliance. We had 1 Administrative search warrant. We are still working with the homeowner to finish the warrant and fix the issue. I had B&F go thru the village to look at garbage cans. After taking picture of 20 violations and see about 20 more B&F stopped. I put on Facebook, the website and the water bills about the sight tight ordinance. I am looking at moving code days to Wednesday or Thursday so we can get a handle on the issue.
