Activities Performed This Period

Activity Summary

Task 1: Project Kickoff

Task Completed

Task 2: Existing and New Data Collection

- Bathy and magnetometer survey completed 8/3/2022; deliverable received 8/9/2022. Survey deliverable submitted
- Ongoing: USACE coordination on historical dredging data of Port Lavaca Channel and other information on Matagorda Channel deepening. USACE slow to respond. Note this is not impacting project schedule
- Other new data collection geotechnical, habitat surveys, cultural resources surveys: have scopes for all work; contracting underway with subcontractors

Task 3: Coastal Analysis, Alts Development, Alts Evaluation

- Coastal data processing and analysis is complete
- · Coastal modeling of site is complete
 - Storm surge model is set up for existing conditions; runs complete.

Activity Summary

- Local wave model is set up for existing conditions; runs for existing conditions complete.
- Modeling of flushing of harbor for existing and w/ project conditions complete.
- · Alternatives development
 - Completed development of alternatives for evaluation.
 - Modeling of proposed alternatives are complete
 - Wave transmission through artificial reefs
 - Typical wave conditions
 - Storm wave conditions
 - Flushing of alternatives
 - Developed and evaluated breakwater modifications based on initial evaluation for improvements to water quality (flushing) and wave protection; work complete.
- Reporting
 - Conducted meeting on CEA and alternatives development with the City and KSBR on 11/4/2022
 - Completed drafting of CEA and Alternatives Development and Evaluation memo. In review; anticipate delivery 3/10/2022
 - Conducted meeting on Alternatives Analysis with the City and KSBR on 2/22/2023

Task 4: Preliminary Design

- Progressed 30% plan sheet. Major components of design complete; currently refining and editing. Need input from City
 and results of resource surveys to finalize.
- Completed developing preliminary geometric design of structures

Task 5: Regulatory Compliance

- Scoped habitat survey and cultural resources survey and survey layout
- · Initiated permit application development

Task 6: Final Design

Not yet started

Task 7: Bidding Phase Services

Not yet started

Task 8: Construction Proposal Solicitation Assistance

Not yet started

Task 9: Project Management

· Ongoing internal project management e.g. scheduling, invoicing, resourcing, etc.

Anticipated Effort Next Period

- Initiate habitat, cultural resources, and geotechnical investigations to start.
- Need to coordinate construction access and possible staging and stockpile areas with City (planned to initiate discussion 5/12/22)
- Proceed with development of 30% design plans; preliminary design documentation.
- Note in budget: After data collection and 30% design is complete, we will be nearing the end of our first draw of funding. I would like to initiate discussions with City and KSBR on how to start monthly invoicing against second milestone draw (Final Design).

Outstanding Items

 USACE has not responded to coordination requests. Mott will continue outreach. Note this is not slowing project progress Please do not hesitate to contact me if you have any questions or comments.
