### Playground Safety Checklist

Inspection ID 0176

Name of Park Lighthouse Beach Park Playground 2 (splashpad area)

Inspection Date 06-17-2026 03:25 PM

| General Inspection |                                                                        | In Good Condition        | Needs Improvement        | Notes          |
|--------------------|------------------------------------------------------------------------|--------------------------|--------------------------|----------------|
|                    | Playground are is free of litter and debris                            | <input type="checkbox"/> |                          |                |
|                    | Playground area is free of anthills/hazardous insects or toxic plants. | <input type="checkbox"/> |                          |                |
|                    | Playground area is free of holes and other tripping hazards.           |                          | <input type="checkbox"/> | Holes in floor |
|                    | Proper signage with rules, hours, and age-appropriate use is posted.   | <input type="checkbox"/> |                          |                |
|                    | Playground area is properly fenced                                     |                          |                          | N/A            |
|                    | Self latching gate works as designed                                   |                          |                          | N/A            |

|          | In Good Condition | Needs Improvement | Notes |
|----------|-------------------|-------------------|-------|
| Approved |                   |                   |       |

|              |                                                                                                                            |                          |                     |
|--------------|----------------------------------------------------------------------------------------------------------------------------|--------------------------|---------------------|
| Surfacing    | surfacing material is used (i.e. solid rubber, artificial graass or turf, play sand, pea gravel, wood chips, rubber mulch) | <input type="checkbox"/> | Holes in floor      |
|              | Surfacing material under and around equipment is adequate depth (6-12 inches)                                              | <input type="checkbox"/> |                     |
|              | Surfacing material is free of glass, debris, or other foreign objects.                                                     | <input type="checkbox"/> |                     |
|              | Surfacing material is not compacting or deteriorating.                                                                     | <input type="checkbox"/> | Floor deteriorating |
|              | Rubber wear mats are used under high-traffic-use areas and covered by sufficient depth of surfacing material.              | <input type="checkbox"/> |                     |
|              | Proper drainage prevents water from forming puddles.                                                                       | <input type="checkbox"/> |                     |
|              |                                                                                                                            |                          |                     |
|              |                                                                                                                            | In Good Condition        | Needs Improvement   |
|              |                                                                                                                            | Notes                    |                     |
| Equipment is |                                                                                                                            |                          |                     |

| Equipment Hazards                                           | not damaged or vandalized.                                           | <input type="checkbox"/> |                          |                           |
|-------------------------------------------------------------|----------------------------------------------------------------------|--------------------------|--------------------------|---------------------------|
|                                                             | Equipment is free from sharp points, corners, or edges.              |                          | <input type="checkbox"/> | Sharp edges/<br>resurface |
|                                                             | Protective caps or plugs are not missing or damaged.                 | <input type="checkbox"/> |                          |                           |
|                                                             | Equipment is free of potential clothing entanglement hazards.        | <input type="checkbox"/> |                          |                           |
|                                                             | Equipment is free of pinch and crush points or exposed moving parts. | <input type="checkbox"/> |                          |                           |
|                                                             | Equipment is free of rust, rot, cracks, and splinters.               |                          | <input type="checkbox"/> | Rust,rot/<br>resurface    |
|                                                             | Equipment is free of entrapments.                                    | <input type="checkbox"/> |                          |                           |
|                                                             | Equipment is safely anchored.                                        | <input type="checkbox"/> |                          |                           |
|                                                             |                                                                      |                          |                          |                           |
|                                                             |                                                                      | In Good Condition        | Needs Improvement        | Notes                     |
| Hardware and chains are in good condition.                  |                                                                      |                          |                          | N/A                       |
| Swings are a safe distance from other playground equipment. |                                                                      |                          |                          | N/A                       |
| Swings are                                                  |                                                                      |                          |                          |                           |

|        |                                                                                                       |                          |                   |       |
|--------|-------------------------------------------------------------------------------------------------------|--------------------------|-------------------|-------|
| Swings | 24 inches apart.                                                                                      |                          |                   | N/A   |
|        | Edges of seats are smooth and free from obstructions.                                                 |                          |                   | N/A   |
|        | Adequate depths of surfacing material extend out a minimum distance of twice the height of the swing. |                          |                   | N/A   |
| Slides |                                                                                                       | In Good Condition        | Needs Improvement | Notes |
|        | Slides are free of obstructions and protrusions.                                                      | <input type="checkbox"/> |                   |       |
|        | Equipped with platforms to facilitate access to the sitting position.                                 | <input type="checkbox"/> |                   |       |
|        | Platforms are equipped with guardrails or equivalent protective equipment.                            | <input type="checkbox"/> |                   |       |
|        | Exit regions are level.                                                                               | <input type="checkbox"/> |                   |       |
|        |                                                                                                       | In Good Condition        | Needs Improvement | Notes |
|        | Hand grips are secured and do not rotate.                                                             | <input type="checkbox"/> |                   |       |

|                    |                                                                                                                       |                          |                   |       |
|--------------------|-----------------------------------------------------------------------------------------------------------------------|--------------------------|-------------------|-------|
| Climbing Equipment | Rope or chain ladders are anchored at both ends.                                                                      | <input type="checkbox"/> |                   |       |
|                    | Foot holds/ rungs are in good condition and adequately spaced.                                                        | <input type="checkbox"/> |                   |       |
| Seesaws            |                                                                                                                       |                          |                   |       |
|                    |                                                                                                                       | In Good Condition        | Needs Improvement | Notes |
|                    | Seesaws are free of cracks, corrosion, and other obvious structural defects.                                          |                          |                   | N/A   |
|                    | Equipment is provided with spring centering devices or cushioning material to prevent abrupt contact with the ground. |                          |                   | N/A   |
|                    | Fulcrums/ pivot points are free of pinch or crush hazards.                                                            |                          |                   | N/A   |
|                    | Handholds are provided at each sitting position.                                                                      |                          |                   | N/A   |
