HIGH FIVE

HIGH FIVE, DOUG!

Exceptional service. A lasting impression.

ADVANCING Quality of Life FOR ALL

DOUGLAS CARPIO

Port Lavaca Parks Department

A warm welcome to Port Lavaca

When recently an out-of-town couple approached Doug at Bayfront Park asking for directions to Lighthouse Beach, Doug had them follow him to the beach to make sure they arrived at the correct location. He then helped the gentleman navigate the entrance gate payment system and recommended a few fishing spots they should visit during their stay.

The visitor called City Hall to praise Doug’s helpfulness, politeness and excellent customer service.

Doug’s kindness made this couple certain they would visit Port Lavaca again.

HIGH FIVE TO OUR BEE CREW!

Keeping the public safe. Saving the bees.

Honey bee hive removal

Above and beyond for our city

Over the past few months, this Public Works Parks crew has gone above and beyond to safely remove honey bee hives from water meters and other locations across the city.

Parks Supervisor Eddie Tyler, a longtime beekeeper, is training Roger Barraza and Tyler Wright to locate hives, vacuum bees into a tote and relocate them safely.

They then remove the hive and treat the area to discourage the bees from returning.

Thank you for protecting our community as well as our pollinators!
