The Building Official shall refer the question concerning any new or unlisted use to the Planning & Zoning Commission requesting an interpretation as to the zoning classification into which such use should be placed. The referral of the use interpretation question shall be accompanied by a statement of facts listing, among other things, the nature of the use and whether it involves dwelling activity, sales, processing, type of product, storage, anticipated employment, transportation requirements, the amount of noise, odor, fumes, dust, toxic material, and vibration likely to be generated and the general requirements for public utilities such as water and sanitary sewer.

SECTION 1
SITE PLAN PROCESS

(Ord. 2020-##; 09-08-2020)

1.1 GENERAL

This Section establishes a site plan review process for land development. The process involves a series of two plans, progressing from a generalized evaluation of a site and development concept to approval of a detailed development plan.

The first plan is a Preliminary Site Plan. This plan presents detailed information on building layout, parking, drives, landscaping, screening, and other site improvements. Preliminary Site Plan approval assures the applicant that the general layout is acceptable prior to proceeding with detailed engineering and design work. Site Plan approval is the final step in the process. A Site Plan is a detailed, scaled drawing of all surface improvements, structures and utilities proposed for development. Site plan approval is required prior to a construction release and prior to the issuance of building permits. Preliminary Site Plans and Site Plans require review and approval by the Planning & Zoning Commission.

The purpose of this process is to:

- A. Ensure compliance with adopted Town development regulations and other applicable regulations for which the Town has enforcement responsibility.
- B. Promote safe, efficient and harmonious use of land through application of Town-adopted design standards and guidelines.
- C. Protect and enhance the Town's environmental and aesthetic quality.
- D. Ensure adequate public facilities to serve development.
- E. Prevent or mitigate adverse development impacts, including overcrowding and congestion.
- F. Aid evaluation and coordination of land subdivision.
- G. Promote the public health, safety and welfare.

1.2 APPLICABILITY

The site plan review process shall apply to:

- A. Nonresidential development, except for Agricultural buildings and temporary field construction offices/staging areas as permitted by the Building Official.
- B. Multifamily residential development having more than four dwelling units.
- C. Mobile home parks.
- D. Parking lot development, reconstruction or reconfiguration of more than twenty (20) spaces.

1.3 SUBMISSION OF APPLICATIONS

Applications for approval of plans required by this Section must be submitted to the Planning Division. A calendar of official submittal dates for items requiring Planning & Zoning Commission approval shall be published by the Town thirty (30) days prior to the beginning of each calendar year. All applications received on a date other than an official submittal date shall be dated received on the next official submittal date. Applications must be complete for acceptance, in accordance with Chapter 1, Section 9.

1.4 FEES, FORMS AND PROCEDURES

The Town Council shall establish a schedule of fees relating to the site plan approval process. The Director of Development Services may establish procedures, forms and standards with regard to the content, format and number of copies of information constituting an application for preliminary site plans and site plans.

1.5 PRELIMINARY SITE PLAN

A. General

A preliminary site plan is the first plan in the site plan approval process. The purpose of the plan is to:

1. Ensure compliance with applicable development regulations and previously approved, valid plans affecting development of the property.
2. Determine the placement, configuration, coverage, size and height of buildings.
3. Determine the design of public street improvements and right-of-way, the design and location of drives, aisles and parking.
4. Determine location and preliminary design of open space, landscaping, walls, screens and amenities.
5. Determine the preliminary design of drainage facilities and utilities.

B. Applicability

Except as provided in Chapter 4, Section 1.6(A), an approved, valid preliminary site plan shall be required prior to the consideration of a site plan for development property defined in Chapter 4, Section 1.2. The plan must include all contiguous property of common ownership, except that approved platted lots that are not part of the intended development may be shown for informational purposes only.

C. Application Procedure and Requirements

1. **Pre-Application** – Before preparing a preliminary site plan, the applicant shall meet with Planning Division staff to discuss the application procedure and requirements, and review the proposed development concept.
2. **General Application** – The property owner, or an authorized representative, shall submit an application for the approval of a Preliminary Site Plan. This application shall include the information listed in the Development Manual.
3. **Additional Requirements** – In addition to meeting the requirements for preliminary site plan approval, the following approvals may be necessary: (such applications and plans shall be accepted for filing, however, prior to approval of the preliminary site plan, and failure to submit such applications prior to approval of the preliminary site plan shall be grounds for denial or rejection of the preliminary site plan).
 - a. Preliminary plat, if applicable.
 - b. Preliminary utility plans, if applicable.
4. **Standards of Approval** – The Planning & Zoning Commission may approve, conditionally approve, table or deny a Preliminary Site Plan based on:
 - a. Conformance with the Comprehensive Plan and adopted design guidelines.
 - b. Compliance with the Zoning Ordinance and other applicable regulations and previously approved, valid plans for the property.
 - c. Impact on the site's natural resources.

- d. Affect on adjacent and area property and land use.
 - e. Safety and efficiency of vehicular and pedestrian circulation, traffic control and congestion mitigation.
 - f. Safety and convenience of off-street parking and loading facilities.
 - g. Access for fire fighting and emergency equipment to buildings.
 - h. Use of landscaping and screening to shield lights, noise, movement or activities from adjacent properties and to complement the design and location of buildings and parking.
 - i. The location, size and configuration of open space areas to ensure that such areas are suitable for intended recreation and conservation uses.
5. **Effect** – Approval of a preliminary site plan by the Planning & Zoning Commission shall constitute authorization by the Town for the land owner(s) to submit an application for final site plan approval for development of the entire site or a portion thereof provided that the site plan conforms to the preliminary site plan and any conditions attached to its approval. During the time the preliminary site plan remains valid, the location of buildings, landscaped areas, open space, streets, drives, fire lanes, median breaks, curb cuts and parking shall remain fixed except as to permit minor adjustments resulting from subsequent engineering of improvements or to prevent a condition affecting public health or safety which was not known at the time of approval. Except where authorized by ordinance, a preliminary site plan may not be used to approve an exception to development regulations. Where an approved plan conflicts with an adopted regulation and no variance or exception is expressly approved, the regulation shall apply.
 6. **Lapse** – The approval of a preliminary site plan shall be effective for a period of two (2) years from the date that the preliminary site plan is approved by the Planning & Zoning Commission, at the end of which time the applicant must have submitted and received approval of a site plan by the Planning & Zoning Commission. If a site plan is not approved within such two (2) year period, the preliminary site plan approval is null and void. If site plan approval is only for a portion of the property, the approval of the preliminary site plan for the remaining property shall be null and void. The applicant shall be required to submit a new preliminary site plan for review and approval subject to the then existing regulations.
 7. **Appeal** – The applicant, Director of Development Services, or a simple majority of the Town Council may appeal the decision of the Planning & Zoning Commission by submitting a written notice of appeal to the Planning Division. The applicant or Director of Development Services must submit said written notice of appeal no later than fourteen (14) days from the date of such decision. The Town Council shall consider and act on whether it will appeal the Commission's decision no later than fourteen (14) days from the date of such decision or at its first regular meeting (for which there is time to post an agenda as required by law) that occurs after the Commission meeting at which the decision was made, whichever is later. Written notice of the Town Council's vote to appeal shall be submitted to the Planning Division within seven (7) days of the Town Council's vote. The Town Council shall consider the appeal at a public meeting no later than forty-five (45) days after the date on which the notice of appeal is submitted to the Planning Division. The Town Council may affirm, modify, or reverse the decision of the Planning & Zoning Commission.

1.6 SITE PLAN

A site plan is the final plan required in the site plan approval process. The site plan is a detailed plan of the public and private improvements to be constructed. The purpose of the plan is to:

- Ensure compliance with applicable development regulations and previously approved, valid plans affecting development of the property.

- Coordinate and document the design of public and private improvements to be constructed.
- Coordinate the subdivision of land, including the granting of easements, development agreements and provision of surety.

A. Applicability

An approved and valid site plan shall be required prior to the approval of any construction plan and permit for any development defined in Chapter 4, Section 1.2 of this Ordinance. An approved, valid preliminary site plan is required prior to the consideration of a site plan except as provided below:

1. Development of a single building on one lot not exceeding three (3) net acres and where the lot is not being subdivided from a larger property.
2. Development of property proposed to occur in a single phase.
2. Development of parking or outside storage areas.
3. Development of utilities and non-occupied structures.
4. Development of outdoor recreation structures and amenities.

B. Application Procedure and Requirements

1. **Pre-application** – Before preparing a site plan, the applicant shall meet with Planning Division staff to discuss the procedures for approval and to review the general concept of the proposed development.
2. **General Application** – The property owner shall submit an application for the approval of a Site Plan. This application shall include the information listed in the Development Manual.

 - a. Final plat or replat.
 - b. Engineering plans.
 - c. Landscape plans.
 - d. Facade plan, if applicable.
 - e. Other approvals as required by ordinance or resolution.
4. **Standards of Approval** – Where application for site plan approval is made for development defined on an approved, valid preliminary site plan, the Planning & Zoning Commission may approve, conditionally approve or deny the application based upon the criteria listed below:
 - a. Conformance with the Comprehensive Plan and adopted design guidelines.
 - b. Compliance with the Zoning Ordinance and other applicable regulations and previously approved, valid plans for the property.
 - c. The design and location of off-street parking and loading facilities to ensure that all such spaces are usable and are safely and conveniently arranged.
 - d. The width, grade and location of streets designed to accommodate prospective traffic and to provide access for fire fighting and emergency equipment to buildings.
 - e. The use of landscaping and screening (1) to provide adequate buffers to shield lights, noise, movement or activities from adjacent properties when necessary, and (2) to complement the design and location of buildings and be integrated into the overall site design.

- f. The location, size and configuration of open space areas to ensure that such areas are suitable for intended recreation and conservation uses.
 - g. Protection and conservation of soils from erosion by wind or water or from excavation or grading.
 - h. Protection and conservation of water courses and areas subject to flooding.
 - i. The adequacy of streets, water, drainage, sewerage facilities, garbage disposal and other utilities necessary for essential services to residents and occupants.
5. **Effect** – Approval of a site plan is the Town's authorization to apply for approval of building permits and to receive approval of engineering plans. During the time the site plan remains valid the Town shall not apply any additional requirements concerning building placement, streets, drives, parking, landscaping or screening. Site plan approval is separate and distinct from other permits and approvals as may be required by the Town and other regulatory agencies. Approval of a site plan shall not affect other applicable regulations concerning development and land use. Except where authorized by ordinance, a site plan may not be used to approve a variance to development regulations. Where an approved plan conflicts with an adopted regulation and no variance or exception is expressly approved, the regulation shall apply.
 6. **Lapse** – The approval of a site plan shall be effective for a period of eighteen (18) months from the date of approval by the Planning & Zoning Commission, at the end of which time the applicant must have submitted and received approval of engineering plans and building permits. If the engineering plans and building permits are not approved, the site plan approval, together with any preliminary site plan for the property, is null and void. If engineering plans and permits have been approved only for a portion of the property and for improvements, the site plan for the remaining property and/or improvements, together with any preliminary site plan for the property, shall be null and void. The applicant shall be required to submit a new preliminary site plan and, subsequently, a new site plan consistent therewith, for review and approval by the Planning & Zoning Commission subject to the then existing regulations (see Chapter 4, Section 1.6(B)). Site plan approval shall expire upon completion of the improvements shown on the plan. Subsequent additional development, site modifications and redevelopment shall be permitted in accordance with Chapter 4, Section 1.10.
 7. **Appeal** – The applicant, Director of Development Services, or a simple majority of the Town Council may appeal the decision of the Planning & Zoning Commission by submitting a written notice of appeal to the Planning Division. The applicant or Director of Development Services must submit said written notice of appeal no later than fourteen (14) days from the date of such decision. The Town Council shall consider and act on whether it will appeal the Commission's decision no later than fourteen (14) days from the date of such decision or at its first regular meeting (for which there is time to post an agenda as required by law) that occurs after the Commission meeting at which the decision was made, whichever is later. Written notice of the Town Council's vote to appeal shall be submitted to the Planning Division within seven (7) days of the Town Council's vote. The Town Council shall consider the appeal at a public meeting no later than forty-five (45) days after the date on which the notice of appeal is submitted to the Planning Division. The Town Council may affirm, modify, or reverse the decision of the Planning & Zoning Commission.

1.7 AMENDMENTS

At any time following the approval of a preliminary site plan or site plan, and before the lapse of such approval the property owner(s) may request an amendment. Amendments shall be classified as major and minor. Minor amendments shall include corrections of distances and dimensions, adjustments of building configuration and placement, realignment of drives and aisles, layout of parking, adjustments to open space, landscaping and screening, changes to utilities and service locations which do not substantially change the

original plan. Any increase of building height or proximity to an adjacent (off-site) residential use shall not be considered a minor amendment. The Director of Development Services or his/her designee may approve or disapprove a minor amendment. Disapproval may be appealed to the Planning & Zoning Commission and Town Council (see Chapter 4, Section 1.6(B)(7) for appeal procedure). All other amendments shall be considered major amendments and will be considered by the Planning & Zoning Commission at a public meeting in accordance with the same procedures and requirements for the approval of a plan.

1.8 EXTENSION PROCEDURE

- A. A property owner, or his/her representative, may request extension of an approved preliminary site plan if such request is submitted to the Director of Development Services, or his/her designee at least thirty (30) days prior to lapse of such plan as provided in these regulations. The preliminary site plan may be extended up to twelve (12) months. Application for the extension shall be made by submitting a development application to the Town's Planning Division on or before one of the Town's official submittal dates for development requests. The application shall be accompanied by a letter detailing the reason for the extension and by the required number of copies of the plan. If the Director of Development Services or his/her designee denies the extension, the applicant may request an appeal to the Planning & Zoning Commission in writing within fourteen (14) days of such denial. If the Planning & Zoning Commission denies the extension, the applicant may request an appeal to the Town Council in writing within fourteen (14) days of such denial.

In reviewing an extension request, the Director of Development Services or his/her designee shall consider the following:

- Has a site plan been submitted for any portion of the property shown on the preliminary site plan?
- Does the preliminary site plan comply with new ordinances, those approved after the initial approval of the preliminary site plan, that impact the health, safety, and general welfare of the community?
- Are there adequate public facilities, such as parks or schools, in the area surrounding the property?

Negative answers to any of the above shall be grounds to deny the extension or approve the extension with conditions. In granting any extension, the Director of Development Services or his/her designee, the Planning & Zoning Commission, upon appeal, or the Town Council, upon appeal, may apply current development standards to the application, or make such other conditions as are needed to assure that the land will be developed in a timely fashion and that the public interest is served. A second one (1) year extension may be requested using the same process after the expiration of the initial extension.

- B. A property owner, or his/her representative, may request extension of an approved site plan if such request is submitted to the Director of Development Services, or his/her designee at least thirty (30) days prior to lapse of such plan as provided in these regulations. Site plans may be extended up to six (6) months. Application for the extension shall be made by submitting a development application to the Town's Planning Division on or before one of the Town's official submittal dates for development requests. The application shall be accompanied by a letter detailing the reason for the extension and by the required number of copies of the plan. If the Director of Development Services or his/her designee denies the extension, the applicant may request an appeal to the Planning & Zoning Commission in writing within fourteen (14) days of such denial. If the Planning & Zoning Commission denies the extension, the applicant may request an appeal to the Town Council in writing within fourteen (14) days of such denial.

In reviewing an extension request, the Director of Development Services or his/her designee shall consider the following:

- Has the preparation of civil engineering plans progressed, a grading permit been issued, or construction commenced?

A negative answer to the above shall be grounds to deny the extension. In granting an extension, the Director of Development Services or his/her designee, the Planning & Zoning Commission, upon appeal, or the Town Council, upon appeal, may apply current development standards to the application, or make such other conditions as are needed to assure that the land will be developed in a timely fashion and that the public interest is served. A second six (6) month extension may be requested using the same process after the expiration of the initial extension.

- C. In determining whether to grant such request, the Director of Development Services or his/her designee, the Planning & Zoning Commission, and/or the Town Council shall take into account the reasons for the requested extension, the ability of the property owner to comply with any conditions attached to the original approval and the extent to which newly adopted regulations shall apply to the plan. The Director of Development Services or his/her designee, the Planning & Zoning Commission, and/or the Town Council shall extend or reinstate the plan, with or without conditions, or deny the request, in which instance the property owner must submit a new application for approval.
- D. The Director of Development Services or his/her designee, the Planning & Zoning Commission, and/or the Town Council may extend or reinstate the approval subject to additional conditions based upon newly enacted regulations or such as are necessary to assure compliance with the original conditions of approval. The Director of Development Services or his/her designee, the Planning & Zoning Commission, and/or the Town Council may also specify a shorter time for lapse of the extended plan than is applicable to original approvals.

1.9 REVOCATION OF APPROVAL

The Town Council or the Planning & Zoning Commission may revoke approval of a preliminary site plan or site plan if it determines that the conditions of the approval have not been met or if the plan contains, or is based upon, incorrect information. The Town shall notify an applicant within fourteen (14) days of such revocation of approval via U.S. Postal Service.

1.10 ADDITIONAL DEVELOPMENT AND REDEVELOPMENT

Following the completion of improvements shown on an approved site plan, additional development, site modifications or redevelopment of the site shall be permitted subject to the approval of a revised site plan. Minor expansions and redevelopment may be approved by the Director of Development Services or his/her designee under the terms of Chapter 4, Section 1.7. All other expansions or redevelopment shall require submittal of a revised site plan and the approval of the Planning & Zoning Commission under the requirements and procedures then in effect.

1.11 WAIVER OF CERTAIN DEVELOPMENT REGULATIONS BY THE TOWN MANAGER

(Ord. No. 2020-43; 05-12-20)

Notwithstanding the authority granted to the Director of Development Services or his/her designee to approve or disapprove minor amendments, pursuant to Subsection 1. 7 of this Section, as amended, the Town Manager is hereby authorized to approve minor waivers or exceptions to any of the following development regulations contained in this Chapter: site plan requirements (Section 1), landscaping (Section 2), tree mitigation (Section 3), parking and loading requirements (Section 4), screening fences and walls (Section 5), outdoor lighting (Section 6), accessory buildings (Section 7), and non-residential design and development (Section 8), all as amended.

In no event shall the Town Manager approve any waiver or exception to a requirement that would (1) alter the permitted uses on the property; (2) increase the permitted density; (3) increase any permitted building

height; (4) reduce any required setbacks; or (5) alter any façade requirements. Moreover, the Town Manager is not authorized and shall not approve any waiver or exception for any development requirement contained in a duly-authorized development agreement, including any requirements relative to building products or materials, or aesthetic method in the construction, renovation, maintenance or other alteration of a building.

SECTION 2
LANDSCAPING*(Ord. 2020-##; 09-08-2020)*

2.1 PURPOSE

The purpose of this Section is to provide for the orderly and aesthetic development of the Town and to promote the health, safety and general welfare of the community. It is the intent of this Section to achieve the following:

- A balance between the need for landscape treatments and the need for commercial growth in the Town.
- Promote a flexible attitude of enforcement sufficient to meet the spirit and intent of these requirements.
- To aid in stabilizing the environment's ecological balance by contributing to the processes of air purification, oxygen regeneration, ground-water recharge, storm water runoff retardation and erosion control.
- Provide for the separation and buffering of incongruous uses and intensity of activities; and provide for the visual softening of building masses.
- Reduce glare from paved surfaces, dust nuisances and the impact of noise.
- Protect and promote the value of residential and commercial properties within the Town.
- Promote a positive image for the attraction of new business enterprises within the Town.
- Encourage the protection of healthy trees and vegetation and promote the natural ecological environmental and aesthetic qualities of the Town.

Therefore, landscaping is required of new development and altered or repaired construction on all developments, and construction of the developments shall conform to the standards in this Section (the "Landscape Standards").

2.2 SCOPE

The standards and criteria contained in this Section are the minimum standards for all new development and existing developments that are expanding or redeveloping thirty (30) percent or more of that development. For the purposes of this Section, expanding or redeveloping, shall be based on an increase of the overall building area. All construction in these developments shall conform to this Section. In addition, any use requiring a Specific Use Permit (SUP) or any property having a Planned Development (PD) zoning designation must comply with these Landscape Standards or the standards set forth in the SUP or PD zoning designation, whichever is more restrictive. The provisions of this section shall be administered and enforced by the Director of Development Services, or his/her designee. For new construction, Landscape Standards shall be shown on a Landscape Plan as required in this Section.

A. Permits

No permits will be issued for building, paving, utilities or construction until a Landscape Plan is submitted and approved by the Town. A Certificate of Occupancy will not be issued until the Landscape Plan approved by the Town has been installed in accordance with that plan and approved by the Town.

If a Certificate of Occupancy is sought during a season of the year in which the Town determines that it would be impractical to plant trees, shrubs or grass, or to lay turf, the developer/owner will deposit with the Town a sum of money equal to the cost of installing all or the remaining portion of the approved Landscape Plan. In lieu of paying cash, the developer/owner may provide financial assurance of payment of the cost of installing the Landscape Plan acceptable to the Town, which will remain in effect until the Landscape Plan is installed and accepted by the Town. The Landscape Plan will be installed within six (6) months of final acceptance of the development by the Town or issuance of the first certificate of occupancy within the development. Failure to do so will be a violation of this Ordinance and subject to the penalties contained herein.

B. Enforcement

If at any time after the issuance of a Certificate of Occupancy, the landscaping that was installed does not conform to the Landscape Plan or the Landscape Standards, the Town will issue notice to the property owner, tenant and/or agent, citing the violation and describing the action required to comply with this Section. The owner, tenant or agent shall have thirty (30) days from date of said notice to comply with approved Landscape Plan. If the landscaping is not installed within the allotted time, the property owner, tenant, and agent shall be in violation of this Ordinance. In addition to any other remedy available to the Town, the Certificate of Occupancy for that property may be revoked.

2.3 LANDSCAPE PLAN

- A. A landscape plan shall be submitted in conjunction with a site plan and/or final plat for all developments. A landscape plan is not required for individual single family lots. With the exception of properties consisting of less than two (2) acres and located in DTO, DTR, or DTC district, the landscape plans shall be prepared by a Landscape Architect and shall contain the information outlined in the Development Manual.

2.4 MAINTENANCE (*Ord. No. 17-74; 09-26-17*)

- A. The owner, tenant and/or their agent, if any, shall be jointly and severally responsible for the maintenance of all landscaping required by this Ordinance. All plant material shall be perpetually maintained in a healthy and growing condition as is appropriate for the season of the year. Plant materials that die shall be replaced by property owner, tenant or agent with plant material of similar variety and size, within thirty (30) days of notification by the Town or a date approved by the Town.
- B. All trees located on Town Property shall be cared for by the Town unless that responsibility is transferred to another entity through a Council-approved agreement. The Director of the Parks and Recreation Department shall ensure that the Town, or its contractor, monitors and cares for trees in a way that promotes a healthy and growing urban forest, is performed according to ANSI A300, "Standards for Tree Care Operations," and tree care best management practices published by the International Society of Arboriculture. It shall be unlawful to remove, prune, damage or otherwise harm trees on Town property without permission from the Director of the Parks and Recreation Department. The Parks and Recreation Department shall be responsible for developing and updating an annual work plan. This work plan shall document what maintenance activities are being performed and scheduled each year. The Parks and Recreation Board may appoint an advisory committee to focus on issues and initiatives that pertain to any Urban Forest that is located on public lands.

2.5 GENERAL STANDARDS

The following criteria and standards shall apply to landscape materials and installation:

- A. All required landscaped open areas shall be completely covered with living plant material. Mulch and other materials can be used around required shrub and tree plantings. Supplemental plantings or design elements that are beyond requirements can be submitted for Town review and approval at any time. Landscape Plans must meet the minimum requirements of this Section prior to approval by the Town.
- B. Plant materials shall conform to the standards of the approved plant lists in this Section and substitutions of plant material may be approved by the Town. The quantity of plant material required by this Section must equal or exceed the minimum number of plants required by this Section. Unless otherwise noted on the approved Landscape Plan, required plant material can be placed in groupings or utilized in appropriate planting designs that are proposed by the applicant and approved by the Town.
- C. Trees shall have an average spread of crown of greater than fifteen (15) feet at maturity. Trees having a lesser average mature crown of fifteen (15) feet may be substituted by grouping the same so as to create the equivalent of fifteen (15) feet crown of spread. Unless otherwise specified herein, trees shall be of a minimum of three (3) inches in caliper as measured twelve (12) inches above natural soil level and seven (7) feet in height at time of planting.
- D. Shrubs other than dwarf variety shall be a minimum of two (2) feet in height when measured immediately

after planting. A screening hedge, where required, shall be planted and maintained so as to form a continuous, unbroken, solid visual screen that will be three (3) feet in height within one (1) year after planting. Any parking area abutting the landscape perimeter will be screened from the adjacent street as approved by the Town. Parking areas that are beyond sixty (60) feet from the property line do not require screening unless adjacent to a residential zoning district or a residential development.

- E. Ground covers used in lieu of grass must provide complete coverage within one (1) year of planting. Ground cover planting must provide and maintain adequate coverage as approved by Town.
- F. Earthen berms shall not exceed a 3:1 slope (three (3) feet of horizontal distance for each one (1) foot of height). All berms will contain adequate drainage and preventive erosion measures as may be required by the Town. Berms shall not include construction debris. Slippage or damage to the smooth finish grade of the berm must be corrected prior to acceptance by Town.
- G. Large Trees must be planted four (4) feet or greater from curbs. Large trees shall be placed a minimum of four (4) feet from sidewalks, utility lines, screening walls and/or other structures. Ornamental trees can be placed closer than four (4) feet with approval from the Town. Any reduction in spacing requires a root barrier approved by the Town. Utility installation that includes common trench and conduit banks is exempt from the Large Tree planting distance requirements. The Town has final approval for all tree placements. The Landscape Plan will show the size and location of duct banks.

The open space shall be computed on the percentage of total platted area in the subdivision, excluding right-of-way dedicated major thoroughfares. This open space shall be owned and maintained by a homeowners' association. Areas provided as usable open space shall meet the following criteria:
 - a. All residential lots must be located within fourteen hundred (1,400) feet of a usable open space area as measured along a street. In order to preserve existing trees or should a property have

unique topography, size, or configuration, this distance may be increased by the Planning & Zoning Commission with approval of the plat.

The Planning & Zoning Commission may give full or partial credit with approval of the plat for open areas that exceed the maximum slope or that are otherwise unusable, if it is determined that such areas are environmentally or aesthetically significant.
- c. Open space areas must be easily viewed from adjacent streets and homes. Open space areas must abut a street on a minimum of forty (40) percent of the perimeter of the open space. However, the perimeter street requirement may be reduced to thirty (30) percent with Planning & Zoning Commission approval of the preliminary plat when:

Detention ponds that contain a constant water level, are landscaped, or otherwise treated as an amenity for the development, as determined by the Director of Development Services or his/her designee, may be calculated toward the required open space.
- e. Open space shall contain one (1) minimum three (3) inch caliper large tree for every one thousand (1,000) square feet of required open space. The tree shall be maintained in a healthy and growing condition, and must be replaced with trees of similar variety and size if damaged, destroyed, or removed. - A. "Floor Area" shall mean the gross floor area of the specific use.
- B. Where fractional spaces result, the parking spaces required shall be constructed to be the next whole number.
- C. The parking space requirements for a use not specifically mentioned herein shall be the same as required for a use of similar nature, as determined by the Director of Development Services or his/her designee.
- D. The Planning & Zoning Commission may approve alternative parking space requirements and/or ratios, subject to consideration of detailed comparable data/studies in conjunction with a Site Plan.
- E. Whenever a building or use constructed or established after the effective date of this Ordinance is changed or enlarged in floor area, number of employees, number of dwelling units, seating capacity or otherwise, to create a need for an increase of ten (10) percent or more in the number of existing parking spaces, such spaces shall be provided on the basis of the enlargement or change. Whenever a building or use existing prior to the effective date of this Ordinance is enlarged to the extent of fifty (50) percent or more in floor area or in the area used, said building or use shall then and thereafter comply with the parking requirements set forth herein.
- F. In the case of mixed uses, the parking spaces required shall equal the sum of the requirements of the various uses computed separately. Up to fifty (50) percent of the parking spaces required for a theater or other place of evening entertainment (after 6:00 P.M.), or for a church, may be provided and used jointly by banks, offices, and similar uses not normally open, used, or operated during evening hours if specifically approved by the Planning & Zoning Commission. Shared parking must be on the same site. Such approval may be rescinded by the Planning & Zoning Commission and additional parking shall be obtained by the owners in the event that the Planning & Zoning Commission determines that such joint use is resulting in a public nuisance by providing an inadequate number of parking spaces or otherwise adversely affecting the public health, safety, or welfare. A decision by the Planning & Zoning Commission to rescind a shared parking approval may be appealed to the Town Council (see appeal procedure in Chapter 4, Section 1.6(B)(7) of this Ordinance).

4.7 LOCATION OF PARKING SPACES

All parking spaces required herein shall be located on the same lot with the building or use served, except as follows:

- A. Where an increase in the number of spaces is required by a change or enlargement of use or where such spaces are provided collectively or used jointly by two (2) or more buildings or establishments, the required spaces may be located not to exceed three hundred (300) feet from an institutional building served and not to exceed six hundred (600) feet from any other non-residential building served.
- B. In any case where the required parking spaces are not located on the same lot with the building or use served, or where such spaces are collectively or jointly provided and used, a written agreement thereby assuring their retention for such purpose, shall be properly drawn and executed by the parties concerned, approved as to form by the Town Attorney and shall be filed with the application for a site plan, building permit or Certificate of Occupancy (CO); whichever occurs first.
- C. Required parking in the DTR, and DTC Districts may be reduced by fifty (50) percent of the current parking requirements as they exist or may be amended. If it is determined that due to existing site constraints, the requirements of this Ordinance cannot be met, the Director of Development Services may approve the use

of parallel or head-in parking located within the street right-of-way, if sufficient right-of-way exists, to satisfy parking requirements.

4.8 USE OF REQUIRED PARKING SPACES IN NON-RESIDENTIAL DISTRICTS

Required parking and loading spaces shall be used only for these respective purposes and not for the storage or permanent display of boats, trailers, campers, motor vehicles or other goods, materials, products for sale.

 1. A loading space shall consist of an area of a minimum of twelve (12) feet wide and thirty (30) feet long.
 2. All drives and approaches shall provide adequate space and clearances to allow for the maneuvering of trucks. Each site shall provide a designated maneuvering area for trucks. (See Chapter 5, Section 2.3, Illustration H)

SECTION 5
SCREENING FENCES AND WALLS*(Ord. 2020-##; 09-08-2020)*

5.1 PURPOSE

Standards set forth in this Section are intended to encourage the appropriate use of land and conserve and protect the privacy and value of adjacent permitted uses. Regulations are prescribed for the location and type of various screening devices to be used when required in the various zoning districts or in this Section in accordance with the following standards.

5.2 LOCATION OF REQUIRED SCREENING *(Z07-7, Z07-8, Z07-17, Z09-5; Ord. No 16-46; 07-26-2016)*

- A. When a boundary of a multifamily, institutional, or non-residential Use sides or backs to a property that is zoned or designated on the Future Land Use Plan for residential (non-multifamily) uses, or when any institutional or non-residential Use sides or backs to a MF District, a solid screening wall or fence of not less than six (6) feet nor more than eight (8) feet in height shall be erected on the property line separating these uses. The purpose of the screening wall or fence is to provide a visual barrier between the properties.

The owner of such property of the lesser restrictive use shall be responsible for and shall build the required wall or fence on his property line dividing his property from the more restrictive zoning district. In cases where the Planning & Zoning Commission finds this requirement to be better met by an irrigated living screen, the same may be substituted for the screening wall after a landscape plan has been prepared to demonstrate equal visual screening.

A screening wall or fence required under the provisions of this section, under a Specific Use Permit, a Planned Development District, or other requirement shall be constructed of clay-fired brick masonry units or other suitable permanent materials which do not contain openings constituting more than forty (40) square inches in each one square foot of wall or fence surface, and the surface of such wall or fence shall constitute a visual barrier. All wall or fence openings shall be equipped with gates equal in height and screening characteristics to the wall or fence. Concrete masonry units, poured in place concrete, tilt-up concrete, or concrete panels may be used upon approval by the Planning & Zoning Commission.

Properties zoned for the DTC, DTR, or DTO District are only required to provide screening along property lines that are adjacent to properties shown as residential on the Future Land Use Plan. The screening shall consist of an eight foot (8') cedar board-on-board wooden fence constructed in accordance with the fence ordinance as it exists or may be amended. In the DTO District, the height of the fence may be reduced to six (6) feet.

- B. All required screening walls shall be equally finished on both sides of the wall.
- C. All loading and service areas shall be screened from view from adjacent public streets and adjacent property that is zoned or designated on the Future Land Use Plan for residential uses. Screening shall be by walls with complimentary landscaping that is compatible with the project design.
1. Screening walls shall be fourteen (14) feet tall with one row of perimeter evergreen trees adjacent to the loading area.
 2. A screening wall is not required if a double row of perimeter evergreen trees is provided on offset fifty (50) foot centers within a fifteen (15) foot landscape edge. Fifty (50) percent of the trees shall be canopy evergreen trees.
- D. All uses providing open storage shall provide a site plan and landscape plan depicting the following:

1. The location of open storage on the property;
2. The location of parking and vehicular maneuvering aisles and/or fire lanes in relation to the open storage;
3. The location of pedestrian access and/or sidewalks adjacent to and accessing the open storage and the primary use; and
4. The location, height, and type of screening.

A new use utilizing an existing building shall submit an amended site plan depicting the location of open storage. If the open storage area exceeds twenty percent (20%) of the gross floor area of the primary use building or ten (10%) of the lot area, it must be presented on a site plan and approved by the Planning & Zoning Commission.

- E. Trash and recycling collection areas shall be located to minimize visibility. Trash and recycling receptacles shall be screened with a six (6) foot clay fired brick or stone wall of a color that is consistent with the color of the primary building. Trash compactors shall be screened with an eight (8) foot clay fired brick or stone wall of a color that is consistent with the color of the primary building. Screening enclosures shall be visually and aesthetically compatible with the overall project. Collection area enclosures shall contain permanent walls on three (3) sides with the service opening not directly facing any public right-of-way or any residentially zoned property, unless setback a minimum of two hundred and fifty feet (250') from the right-of-way or residentially zoned property. The fourth (4th) side will incorporate a metal gate of a height equal to the height of the wall to visually screen the dumpster or compactor. Enclosure sizes and specifications shall be determined by the Town's trash and recycling contractor.
- F. Where any alley intersects with a street, no fence or plant taller than two and one-half (2½) feet may be placed within a sight visibility triangle defined by measuring five (5) feet down the alley right-of-way line and measuring fifteen (15) feet down the street right-of-way line, then joining said points to form the hypotenuse of the triangle.
- G. In any residential Zoning District, or along the common boundary between any residential and non-residential district where a wall, fence, or screening separation is provided, the following standards for height, location, and design shall be observed:
 1. Any fence or wall located to the rear of the minimum required front yard line shall not exceed eight (8) feet in height above the grade of the adjacent property. Where a fence intersects a screening wall and the height of the fence exceeds the height of the screening wall, the height of the fence shall transition to the height of the screening wall over a distance of twenty (20) feet.
 2. The maximum height of a fence or wall in a required front yard of a single family or duplex shall not exceed four (4) feet. Combinations of berms and fences shall not exceed four (4) feet in height. Ornamental metal fencing that is attached to required screening walls as defined in Subdivision Ordinance No. 03-05, as it currently exists or may be amended, may be constructed up to eight (8) feet in height in the front yard of cul-de-sac lots for only the side of the lot that is adjacent to a street with a right-of-way width of sixty (60) feet or greater. The height of this fence shall not exceed the height of the adjacent required screening wall.
 3. The maximum height of a fence in a required front yard of a single family lot that is one (1) acre or larger may exceed the four (4) foot height limit established above, provided that said fence shall not exceed eight (8) feet in height and shall be constructed of wrought iron or decorative tubular steel.
- H. Screening shall be required between residential lots and adjacent right-of-ways as required by Subdivision Ordinance No. 03-05, as it currently exists or may be amended.

- A. The minimum lot area for the various Zoning Districts shall be in accordance with the individual Districts except that a lot having less area than herein required which was an official "lot of record" prior to the adoption of this Ordinance, may be used for a single-family dwelling and no lot existing at the time of passage of this Ordinance shall be reduced in area below the minimum requirements set forth in the respective District.
- B. Location of Dwellings and Buildings - Only one main building for single family and two-family use, with permitted accessory buildings, may be located upon a lot or unplatted tract.
- C. Every means of access shall have a minimum lot width of twenty-five (25) feet at the property line.
- D. Whenever two or more main buildings, or portions thereof, are placed upon a single lot or tract and such buildings do not face upon a public street, the same may be permitted when the site plan for such development is approved by the Planning & Zoning Commission so as to comply with the Town Subdivision Regulations' requirements for platting.
- E. No parking area, storage area, or required open space for one building shall be computed as being the open space, yard, or area requirements for any other dwelling or other use.
- F. Residential Density Calculations:

The maximum permitted residential densities for the TH and MF Districts shall be calculated using the net acreage of the site to be developed. Net acreage shall not include the following:

- Right-of-way dedicated for major thoroughfares.
- Required parkland dedication.
- Detention.
- Land used for non-residential purposes.

Net acreage may include the following:

- Non-reclaimed floodplain.
- Private open space.
- Park dedication in excess of minimum park dedication requirements.
- Detention ponds that contain a constant water level, are landscaped, or otherwise treated as an amenity for the development, as determined by the Director of Development Services or his/her designee.

9.2

MINIMUM DWELLING UNIT AREA:

The minimum dwelling unit area of a residential unit shall be as specified in each residential Zoning District in Chapter 2 of this Ordinance. Dwelling unit area is defined as that area devoted to the living area in a residence or dwelling unit and is exclusive of porches, enclosed or open breezeways, storage area or closets, garages, or other non-living space. The minimum dwelling unit area will generally be that space which is air-conditioned.

9.3

FRONT YARD:

- A. On corner lots, the front yard setback shall be observed along the frontage of both intersecting streets, unless shown specifically otherwise on a final plat.
- B. Where the frontage on one (1) side of a street between two (2) intersecting streets is divided by two (2) or more Zoning Districts, the front yard shall comply with the requirements of the most restrictive Zoning District for the entire frontage.

- C. Where a building line has been established by a plat approved by the Town of Prosper or by ordinance prior to the adoption of this Ordinance, and such line required is a greater or lesser front yard setback than prescribed by this Ordinance for the Zoning District in which the building line is located, the required front yard shall comply with the building line so established by such Ordinance or plat provided no such building line shall be set back less than twenty (20) feet.
- D. The front yard shall be measured from the property line to the front face of the building, covered porch, covered terrace or attached accessory building. Eaves and roof extensions or a porch without posts or columns may project into the required front yard for a distance not to exceed three (3) feet, and subsurface structures, platforms or slabs may not project into the front yard to a height greater than thirty (30) inches above the average grade of the ground under the structure (See Chapter 5, Section 2.3, Illustration I).
- E. Where a lot fronts and backs to two (2) different streets, a required front yard shall be provided on both streets unless a building line for accessory buildings has been established along one frontage on the plat or by ordinance, in which event only one required front yard need be observed (See Chapter 5, Section 2.3, Illustration J).
- F. In all Single Family and 2F Districts, the minimum front yard setbacks for all lots fronting onto the same street along a block shall be staggered such that one third (1/3) of the lots have a front yard setback that is reduced by five (5) feet, one third (1/3) of the lots have a front yard setback as defined in Chapter 2, and one third (1/3) of the lots have a front yard setback that is increased by five (5) feet. Not more than two lots in a row may incorporate the same front yard setback. The average setback along the block shall equal the required setback for the particular Zoning District. The lots with an increased front building line may also decrease the rear building line by five (5) feet to maintain the necessary building pad depth. The purpose of this requirement is to produce a variety of front yard setbacks along a street, creating a more pleasing street presence and appearance of houses in the subdivision. In no case shall the front yard setback be less than twenty (20) feet. The front setbacks for each lot shall be designated on the final plat. (See Chapter 5, Section 2.3, Illustration K)
- G. Visual clearance shall be provided in all Zoning Districts so that no fence, wall, architectural screen, earth mounding or landscaping thirty (30) inches or higher above the street center line obstructs the vision of a motor vehicle driver approaching any street, alley, or driveway intersection.
 - 1. At a street intersection where one or both of the streets is a major thoroughfare, clear vision must be maintained for a minimum of twenty-five (25) feet across any lot measured from the corner of the property line in both directions. (See Chapter 5, Section 2.3, Illustration L)
 - 2. At an intersection of two neighborhood streets, this clearance must be maintained for ten (10) feet. (See Chapter 5, Section 2.3, Illustration M)
 - 3. At an intersection of a neighborhood street and an alley, this clearance must be maintained for five (5) feet down the alley and fifteen (15) feet down the street. (See Chapter 5, Section 2.3, Illustration N)
 - 4. Fences, walls, and thirty (30) inches in height, as measured from the centerline of the street, or less may be located in the visual clearance areas of all Districts.
- H. Gasoline, or other hydrocarbon fuel, service station pump islands including their associated unenclosed canopies shall meet the front yard setback requirements established in Chapter 2 of this Ordinance when located adjacent to a public street.
- I. Where a future right-of-way line has been established for future widening or opening of a street or thoroughfare, upon which a lot abuts, then the front or side yard shall be measured from the future right-of-way line.
- J. The minimum front yard in single-family and two-family Zoning Districts may be reduced by ten (10) feet in the following circumstances. In no case shall the reduction cause the minimum front yard to be less than fifteen (15) feet.

1. For an outside swing-in garage provided the wall of the garage that faces the street contains a glass pane window with a minimum size of three (3) feet by five (5) feet and the height of the garage does not exceed one (1) story; or
2. For a non-enclosed porch, stoop, or balcony, or an architectural feature, such as bay window without floor area or chimney; or
3. For a non-enclosed porch and the main structure provided:
 - a. the height of the main structure does not exceed one (1) story;
 - b. the porch has a minimum dimension of seven (7) feet in depth measured from stud to the front edge of the porch floor and a minimum width of twenty (20) feet; and

9.4 SIDE AND REAR YARDS:

- A. On a Key Lot used for one or two-family dwellings, both street exposures shall be treated as front yards (See Chapter 5, Section 2.3 Illustration O) on all key lots except where one street exposure is designated as a side yard and separated from the adjacent lot by an alley (See Chapter 5, Section 2.3 Illustration P). In such case, a building line shall be designated on the plat approved by the Town of Prosper containing a side yard of fifteen (15) feet or more. On lots that were official lots of record prior to the effective date of this Ordinance, the minimum side yard adjacent to a side street shall comply with the minimum required side yard for the Zoning District.
- B. Every part of a required side yard shall be open and unobstructed from the ground upward except for accessory buildings as permitted herein and the ordinary projections of window sills, belt courses, cornices, and other architectural features not to exceed twelve (12) inches into the required side yard, and roof eaves projecting not to exceed thirty-six (36) inches into the required side yard. Air conditioning compressors and similar appurtenances are permitted in the side yard.
- C. Side yard setbacks in the R, C, and CC Districts may be waived for a building when attached to an adjacent building and is shown on a site plan approved by the Planning & Zoning Commission. (Z07-8)
- D. The face (meaning garage door) of a garage that faces a side yard (a swing-in garage) must be setback twenty-four feet (24') from the side property line. (Z10-0013)
- E. Non-residential uses that are permitted within a single family Zoning District (such as a day care, school, or church) shall maintain a forty (40) foot side and rear building setback when adjacent to a property that is zoned or designated on the Future Land Use Plan for residential uses.

9.5 SPECIAL HEIGHT REGULATIONS

Water stand pipes and tanks (excluding Town owned and/or operated water tanks), church steeples, domes, spires, school buildings, and institutional buildings may be erected to exceed three (3) stories in height, provided that one (1) additional foot shall be added to the width and depth of front, side, and rear yards for each foot that such structures exceed three (3) stories.

Ornamental features in all non-residential Zoning Districts may exceed the maximum building height provided that the ornamental feature does not contain floor area and provided the required setbacks for the ornamental feature are increased by two (2) feet for every one (1) foot that the ornamental feature exceeds the maximum height. Ornamental features include, but are not limited to towers, spires, steeples, and cupolas.

9.6 MEASUREMENTS:

All measurements of setback requirements shall be made according to Chapter 5, Section 2.3, Illustrations Q-U.
