

Exhibit E – Development Schedule

Assuming the PD Amendment is approved, and the screen wall remains in its current location, the following Development Schedule is contemplated.

3 Months Post Approval

Twin Creeks Prosper, LLC will complete the screen wall (construction of the screen wall was halted due to concern over the location).

Widening of FM 1461 Complete – Apply for and Secure TXDOT Landscaping Permit

When the widening of FM 1461 is complete, Twin Creeks Ranch Residential Community, Inc (HOA), will work with the Town of Prosper to apply for and secure a permit from TXDOT to enable the placement of the landscape hedge in front of the screen wall within the TXDOT ROW. The timing of the permit application will be dependent on the completion of FM 1461.

Widening of FM 1461 Complete – Installation of Permitted Landscaping

Permits issued by TXDOT require that work begin within 6 months of the permit issue date, with no requirement date for completion. Once the widening of FM 1461 is complete, and a permit secured, Twin Creeks Ranch Residential Community, Inc. (HOA), will install the landscaping within two months of the permit issue date.
