LANDSCAPE EASEMENT

The undersigned covenants and agrees that the landscape easement and restrictions herein set forth shall run with the land and be binding on the owner(s) of the property in this subdivision, their successors and assigns, and all parties claiming by, through and under them. In the event a Replat is requested on all or part of this property, the Town may require any similar or additional restrictions at its sole discretion. The sole responsibility for maintenance and replacement of landscape materials thereof shall be borne by any "homeowners' association hereafter established for the owners of lots in this subdivision and/or the owner of the individual lots within this subdivision. Such maintenance and replacement shall be in conformance with the requirements, standards, and specifications of the Town of Prosper, as presently in effect or as may be hereafter amended. This Landscape Easement shall be void of utilities and other elements unless otherwise approved on the plat.

DRAINAGE AND FLOODWAY EASEMENT

This plat is hereby adopted by the Owners and approved by the Town of Prosper (Called "Town") subject to the following conditions which shall be binding upon the Owners, their heirs, grantees, successors and assigns: The Portion of Blocks

Each property owner shall keep the natural drainage channels traversing or adjacent to his property clean and free of debris, silt, and any substance which would result in unsanitary conditions or obstruct the flow of water, and the Town shall have the right of ingress and egress for the purpose of inspection and supervision of maintenance work by the property owner to alleviate any undesirable conditions which may occur. The natural drainage through the Drainage and Floodway Easement, as in the case of all natural channels, are subject to storm water overflow and natural bank erosion to an extent which cannot be definitely defined. 8. The Town of Prosper and public utilities shall at all times have the full right of ingress and egress to or from their respective easements for the purpose of constructing, reconstructing, inspecting, patrolling, maintaining, reading meters, and adding to or removing all or parts of their respective systems without the necessity at any time of procuring permission from anyone.
9. All modifications to this document shall be by means of plat and approved by the Town of Prosper.
10. For lots adjacent to a Floodplain Only: a. 100 Year Floodplain Easement Restriction: Construction within the floodplain may not occur until approved by the Town. (A request for construction within the floodplain easement must be accompanied with detailed engineering plans and studies indicating that no flooding will result, that no obstruction to the natural flow of water will result; and subject to all owners or the property affected by such construction becoming a party to the request.) Where construction is approved, all finished floor elevations shall be a minimum of two (2) feet above the 100-year flood elevation as determined by analyzing the ultimate build-out conditions of the entire drainage basin. Existing creeks, lakes, reservoirs, or drainage channels traversing along or across portions of this addition, will remain as an open channel at all times and will be maintained by the individual owners of the lot or lots that are traversed by the drainage courses along or across said lots. The Town will not be responsible for the maintenance and operation of said drainage ways or for the control of erosion. Each property owner shall keep the natural drainage channels traversing his/her property clean and free of debris, silt, or any substance that would result in unsanitary conditions. The Town shall have the right of ingress and egress for the purpose of inspection and supervision of maintenance work by the property owner to alleviate any undesirable conditions, which may occur. The Town is not obligated to maintain or assistance with maintenance of the area. The natural drainage channel, as in the case of all natural drainage channels, are subject to storm water overflow and natural bank erosion. The Town shall not be liable for damages of any nature resulting from the occurrence of these natural phenomena, nor resulting from a failure of any structure(s) within the natural drainage channels. The natural drainage channel crossing each lot is shown by the Floodway easement line as shown on the plat. If a Subdivision alters the horizontal or vertical floodplain, a FEMA Floodway map revision may be required.
