# **Description of Agenda Item:**

The purpose of this request is to rezone the property from Single Family-15 to a Planned Development with a base zoning of Downtown Office. The intent of the request is to construct a two-story, mixed-use building that allows for multifamily, office, and retail uses. The first floor will consist of office and retail uses while the second floor will consist of a maximum of four multifamily units.

#### Compatibility:

This zoning change would not be seen as out of character with the existing neighborhood due to compatibility with the surrounding areas. There is surrounding development to the north that shares the same base zoning as the proposed development. Additionally, areas to the south and the west have zoning districts that will produce similar uses to the proposed uses in this Planned Development.

The zoning and land use of the surrounding properties are as follows:

|                     | Zoning  | Current Land Use | Future Land Use Plan |
|---------------------|---|------------------|----------------------|
| Subject<br>Property | Single Family-15                              | Vacant           | Old Town District    |
| North               | Planned Development-<br>112 (Downtown Office) | Office           | Old Town District    |
| East                | Single Family-15                              | Residential      | Old Town District    |
| South               | Commercial                                    | Residential      | Old Town District    |
| West                | Downtown Retail                               | Vacant           | Old Town District    |

|                   | the western property line.                      |  |

The planting areas on the northern and southern property lines are impacted by the condensed site. Staff recommended ground cover for these buffers and appropriate landscaping adjacent to the neighboring residential property and Coleman Street. Staff has determined that adequate landscaping has been provided on the eastern and western boundaries to mitigate the landscaping provided on the northern and southern boundaries.

#### Architectural Standards:

The architectural standards within this Planned Development require the building to be consistent with the Downtown Office architectural standards. Overall, elevations will exceed 90 percent masonry. Additionally, all construction shall have an approved façade plan before issuance of a building permit.

#### Town Staff Recommendation:

Town Staff recommended approval of the request to rezone 0.3± acres on Prosper Central Addition, Block 1, Lot 1 from Single Family-15 to Planned Development-Downtown Office, located on the northeast corner of Coleman Street and Sixth Street to the Planning & Zoning Commission.

#### Planning & Zoning Recommendation:

The Planning & Zoning Commission recommended approval of this item by a vote of 4-2 at their meeting on March 19, 2024. Commissioners Reeves and Blanscet voted in opposition to this item due to concerns with the multifamily component and the adjacency to residential development to the east.

#### Proposed Motion:

I move to approve/deny the request to rezone 0.3± acres on Prosper Central Addition, Block 1, Lot 1 from Single Family-15 to Planned Development-Downtown Office, located on the northeast corner of Coleman Street and Sixth Street.
