**Re: Wandering Creek Phase I**

Dear Planning Department,

This letter is in reference to a pecan tree that is on the property and is shown on the Tree Survey as tree # 144 and is classified as an historic tree. The street adjacent to the lot and tree was planned in such a way to attempt to save the tree. Once the grading and utility work was done it was the opinion of an arborist that the tree would most likely not live. Therefore, we are respectfully requesting permission to remove this tree to avoid hardships in the future.

Sincerely,

Warren L. Corwin, P.E.
