

## AGENDA ITEM ANALYSIS

Project/Issue Name: 24-69 An Ordinance of the City Council Approving Amendment of the Zoning Classification of Approximately 0.18 Acres of Real Property Located at 204 North Main Street and 103 East Grant Street from Local Commercial (C-1) to Main Street District (MSD).

Submitted By: Patrick Ruiz, Associate Planner

Date: November 19, 2024

### Issue Statement

The City of Republic has applied to change the Zoning Classification of approximately 0.18 acres of property located at 204 North Main Street and 103 East Grant Street from Local Commercial (C-1) to Main Street District (MSD). This property can also be described as all of Lot 1 Block 1 and a portion of Lot 3 Block 1 of the Original Plat Of The Town Of Republic.

### Discussion and/or Analysis

The 0.18 Acres of property subject to this Rezoning Application is currently the site of a vacant office building that was previously the location for administrative office space for the City. 103 East Grant Street is currently a vacant parcel, whereas 204 North Main Street is the site of the forementioned office building.

The following paragraphs contain brief analyses of present site conditions as well as the proposal's relationship to **adopted plans of the City**.

### Consistency with the Comprehensive Plan

The City's Comprehensive Plan generally encourages the expansion of residential and commercial development through proactive Rezoning of land at appropriate locations. Appropriate locations are described generally throughout the Plan, with regard to the **relationship of land at particular locations to infrastructure capable of supporting various intensities and densities of uses**.

- **Goal:** Support market conditions to develop a greater variety of residential and commercial options.
  - **Objective:** Support opportunities to create new destination-style commercial developments.
- **Goal:** Encourage revitalization or redevelopment of older building stock in commercial and residential districts.
  - **Objective:** Promote a diverse, locally owned downtown business district.

- **Objective:** Support private and local efforts to revitalize downtown residential development as well as the development of a variety of housing styles.
- **Goal:** Recognize potential infill sites as opportunities for development, while mitigating impacts to adjacent, established properties.
  - **Objective:** Support the development of vacant parcels as opportunities for densification that is harmonious with surrounding development.
  - **Objective:** Allow for mixed-use at highly visible vacant properties within the City and ensure impacts to adjacent properties are minimized.

The Rezoning of this parcel is consistent with City's Adopted Plans.

#### **Compatibility with Surrounding Land Uses**

The subject property fronts the Main Street Corridor with neighboring parcels of land zoned Local Commercial (C-1) to the north, east, south across Grant Street, and west across Main Street. The land uses of the adjacent properties facing the Main Street Corridor are commercial in nature, while the land use of the properties behind the subject property is residential.

The intent of this district is to provide a district which will accommodate mixed-use developments that include retail shopping activities, office, and residential uses while ensuring future development does not drastically alter the character of the Republic Downtown Area.

The subject property is located within the defined Downtown Republic boundaries as defined in Section 4015.148 "MSD" Main Street District of the Republic Municipal Code.

Such rezoning would be compatible with the surrounding land uses.

#### **Capacity to Serve Potential Development and Land Use**

##### **Municipal Water and Sewer Service:**

City Water and Sewer systems have capacity to serve this property if the application is approved.

The property has access to wastewater infrastructure through an 8" gravity sanitary sewer line located behind the property. Effluent would travel through gravity lines to the Wastewater Treatment Facility.

Water is currently available to the site through a 4" water main running along Main Street.

The water system and Wastewater Treatment Facility currently have capacity to serve the intended use.

##### **Transportation:**

The property has access to Main Street, a Primary Arterial.

The Traffic Impact Study (TIS) requirement for this Rezoning Application has been waived; however, any development with this zoning designation shall be subject to site plan review requirements. A TIS could be required, depending on the scope of private improvements proposed for future development, to determine any needed public improvements to the transportation infrastructure.

**Floodplain:**

The subject parcel **does not** contain areas of Special Flood Hazard Zones (SFHA/Floodplain).

**Sinkholes:**

The subject property **does not** contain an identified sinkhole.

**Recommended Action**

Staff considers the **proposed Zoning Map Amendment (Rezoning)** to be generally consistent with the **goals and objectives of the Comprehensive Plan**, consistent with the **trend of development in the vicinity of the site, compatible with surrounding land uses, and able to be adequately served by municipal facilities**. Based upon this analysis (performed without the benefit of evidence and testimony of a public hearing), **Staff recommends the approval of this application.**

At this time City Council has not voted on the proposed amendments to Chapter 405 Zoning Regulations – specifically to **Section 405.148 “MSD” Main Street District** and additional Sections that generally regulates such district (Ordinance 24-62) – brought forward to the Republic P&Z Commission on October 7<sup>th</sup>, 2024. If the City Council **does not approve** the proposed amendments, City Staff will request to table or withdraw this rezone application.
