

AGENDA ITEM ANALYSIS

Project/Issue Name: 24-R-50 A Resolution of the City Council Authorizing the City to Execute a Services Agreement with Own, Inc. for Engineering Design Services of Stormwater Improvements to the Future Joshua Morris Park Site.

Submitted By: Stefani Fitzpatrick-Duncan, Engineer

Date: November 19th, 2024

Issue Statement

A Resolution authorizing the City Administrator to execute a contract with OWN, Inc. for stormwater engineering services at the future Joshua Morris Park site.

Discussion and/or Analysis

The City owns a parcel of land along Highway 174 which was donated to the City (via Ordinance 21-71) to be used for the development of Joshua Morris Park. The parcel lies within the 2019 floodplain. Stormwater improvements are necessary at this location to facilitate use of the property and to lessen flooding for downstream residents along W. Logan Street.

The contract includes completion of design services for stormwater improvements and floodplain analysis for a total not to exceed price of \$30,000, with work to begin immediately after the date of commencement of the contract. OWN Engineering (formerly Anderson Engineering) is on the City's approved on-call engineering list.

Recommended Action

Staff recommends approval.
