

AGENDA ITEM ANALYSIS

Project/Issue Name: 21-R-17 A Resolution of the City Council of the City of Republic, Missouri, Authorizing a First Amendment to Task Order No. 10 with Burns & McDonnell for Services Related to the Wastewater Treatment System.

Submitted By: Andrew Nelson, Republic BUILDS Director

Date: April 20, 2021

Issue Statement

This amendment modifies the scope of Task Order 10 to expedite delivery of design and construction services.

Discussion and/or Analysis

The amendment to the cope will remove all the SRF related administration and design protocols resulting in a reduction of \$60,000. The amendment will also allow for the contractor to provide full design and delivery as a Design Build project. This allows for the project materials and preliminary work to begin as the final design is being completed. The proposed changes to delivery will allow for the delivery of improvements and ultimately the compliance issues to be addressed a full year sooner than that of a traditional full design with construction award and bidding to follow. Burns & McDonnell was selected for the master planning efforts and resultant capital improvements design and are the most qualified to deliver the project.

Recommended Action

Staff recommends approval.
