

Minimum Control Measures of Pollution Prevention

**THE TOP 5
STORMWATER
POLLUTANTS**

1

PET WASTE

Pet waste can runoff into stormwater and degrade water quality.

2

LITTER

Litter can accumulate in water, destroy habitats, and damage infrastructure.

3

**HOUSEHOLD AND
AUTO WASTE**

Household and auto waste can endanger plant and animal life.

4

**HERBICIDES, PESTICIDES,
AND FERTILIZERS**

Can cause unregulated plant growth or cause harm to aquatic plants and animals.

5

YARD WASTE

Yard waste can clog stormwater inlets and cause oxygen depletion in water.
