Other Remarks: Liberty Connect will provide circuits as detailed above to the locations listed above. The customer will provide adequate space, proper power and environmental conditioning for the install of our network interface device (NID). The customer will provide their own router/firewall device to connect to our NID and their own network and network devices.

It is Liberty Utilities SOP to prioritize restoration to emergency services in the event of an outage.

This contract includes the construction of new service to JR Martin Park, the move of the WWTP circuit to new admin building, a new Internet connection at the WWTP, and rehomeing of all Network Interface Devices serving the City of Republic back to the Republic Liberty Connect network element.

IN WITNESS WHEREOF, the parties have executed this Carrier Facilities Description on September 16th, 2025.
