	Day-Day Totals YTD	3	46	-	22	3	68
	Total Tracked YTD	56	114	12	35	68	149

- Overall activity is slowing down. There are several projects in the works where applications and site plans are in and payments are not. Projects have been cancelled due to selling of property, or deciding to maintain current structure.
- Working on getting all of 2025 and 2026 permits etc. entered into the Master Parcel Tracker spreadsheet I created. Currently the data above is ~98%+ complete.
 - Overall, actionable activity is up YoY ~25% YTD
 - Overall all-in total activity is up YoY ~119% YTD
 - This big jump is due to tracking items that do take some research time that doesn't result in action. Example: Realtor asking about Land Use, Zoning of Property, Property Owner inquiring about structures on property, Annexing, Land Split etc.
