

**Re: Commercial Property Sign - John Collins**

09/28/2026

Good Afternoon John,

After pricing out this sign I gave it some thought and I thought that if this sign is going to be temporary or not up very long I thought I would give you pricing for a realty frame style sign. The panel can easily be removed at any point and reused if you choose to reuse them and it can easily be installed in the ground by one person without digging any holes in the ground. For this type of sign I came up with a price of **\$430.00 + tax**. The price includes materials, art setup and labor.

If you have any questions please let me know, otherwise just let me know if you wish to proceed with this signage and we can move forward from there.

Thanks!

Sierra Machovec
