EXPERIENCE

AmeriWaste services sixteen municipal contracts and an additional 9,000 plus individual customers within the surrounding area which includes Harris, Fort Bend, and Galveston and Brazoria counties.

Current Solid Waste Contracts – see References.

AmeriWaste has always completed our scheduled routes unless an act of God forced non pickup. We have consistently been able to restart service as soon as the event cleared, and the landfill reopened.

AmeriWaste has experienced continued growth within the last 60 months. We added the City of League City in 2018, the City of Kemah in 2018, the Community of Brook Forest in 2019, WCID #1 in 2020, and the City of Freeport in April 2022. When looking at our references, you will see that we have long-standing relationships with our cities and communities. AmeriWaste runs residential and commercial routes six days a week. We service over 70,800 residential customers and 2,100 commercial accounts monthly. We specialize in smaller communities but can service cities as large as League City. Developing relationships with our customers, being able to quickly respond, having great teamwork and well-maintained equipment, allows us the ability to pick up all our scheduled routes. We do not hire contract workers. All the team members are employees of the company with the management team having ownership in the company. When we response to our customers they are dealing with an owner.

Janell Marin, CEO, has 40 years' experience in the solid waste industry. Her experience ranges from managing daily operations, sales, and maintenance, to all financial aspects of the company. Ms. Marin has owned and operated solid waste companies for 23 years and worked for a regional solid waste company for over 5 years. Ms. Marin has a bachelor's degree in accounting and is a Certified Public Accountant. Her current responsibilities are growing the management team, all financial functions and business development.

With over 45 years experience in senior management including municipal experience with 18 years in the solid waste industry, Michael Clawson engages in business development and training. His experience includes contract negotiation and integration. Mr. Clawson has a bachelor's degree in public administration and a master's degree in human resource management. Mr. Clawson services as Vice President/Secretary of the company.

Jaclyn Hildreth has over 23 years of solid waste experience in customer service, billing, and municipal relations. She has extensive knowledge of handling customer issues and interfacing with customers in a professional friendly manner. Ms. Hildreth currently serves as our President of Operations and is responsible for our daily operations including all billing.

METHODOLOGY

AmeriWaste will provide a superior level of Solid Waste services to the residents of Richwood. We would utilize the latest technology available to provide curbside residential collection. We propose dividing the City into two routes for trash service with pickup days to be a Monday/Thursday and Tuesday/Friday. Heavy trash pickup will be on all service days. Recycling Services will be provided every Wednesdays utilizing forty-eight gallon recycle carts. We would use rear loader trucks with a driver and two helpers. Residents would be able to place two trash cans up to sixty-four gallons, two heavy trash items plus four bundles or bags of green waste curbside for pickup each service day. This method provides for heavy trash not sitting curbside for a month at a time, allows for residents to recycle more materials and not have to collect for weeks, and provides greater flexibility in household trash and green waste disposal. The proposed method promotes a cleaner neighborhood and quality of life.

AmeriWaste will work with the City to notify the residents of the changes in service and help to ensure a smooth transition. We would request that the City facilitate a transition meeting with the current provider. We would deliver all recycling carts prior to the start date. We will meet with the commercial customers in the City to discuss their solid waste needs and set up their services as requested. The City would be responsible for the billing and collections of the residential solid waste fees and remit to AmeriWaste monthly.

Our customer service operations are located at 3894 E Hwy 6 Alvin. The management and personnel of AmeriWaste are most concerned with achieving customer satisfaction. This goal is achieved by providing excellent customer service. To meet the expectations of our customers, we have trained customer service representatives to manage all the inquiries.

1.2 Purpose

The purpose of this RFP is to provide minimum requirements, solicit proposals and gain adequate information from which the City may evaluate the proposer’s products and services as they compare to other providers and as they pertain to the needs of the City’s organization as defined in this document.

2. Background Information:

2.1 Location

The City serves an area of approximately 5 square miles with a population of approximately 6,000 and is located in Brazoria County, 52 miles south of Houston, and approximately 16 miles from the Gulf Coast.

City Infrastructure

The City is organized into six (6) departments and provides a full range of municipal services to its citizens including fire (volunteer department) and police protection, municipal court facilities, water and sanitary sewer utilities, the construction of streets, drainage and other infrastructure, recreational activities, and other facilities used for various cultural and civic activities. The City utilizes the services of a contractor in order to provide solid waste collection services and residential recycling.

2.2 Solid Waste Collection & Disposal

The City of Richwood ("the City") is requesting proposals from interested and qualified contractors ("Applicants") to provide the City with residential and commercial solid waste collection, transport, and disposal or processing ("Project") within the city limits.

3. Scope of Work:

3.1 General

The City Council is dedicated to responsive and customer-focused solid waste services for the citizens of the City of Richwood. The City of Richwood is interested in proposal from companies with a strong commitment to excellent customer service, which will work well with the City Council, and promote and support core values of trust, teamwork, effective communication, professionalism, and quality of life. The ideal company will be customer- focused, responsive, innovative, friendly, and committed to offering Richwood residents quality service. The City desires a vendor that demonstrates quality management driven by value and a strong work ethic, not necessarily the least expensive provider.

Specifically, Applicant requirements include:

1. Provide an efficient and economical once weekly service of curbside collection of solid waste for all residential and commercial customers within the City limits;

4. Collect and transport recycling, twice a month.
5. Maintain positive communications with the City and the customer.

Specifically, Applicant responsibilities include:

1. Leave waste containers (including the lids) on the side of the street in an upright fashion;
2. Ensure no loose trash in the streets or yards of customers (i.e., if trash falls out of the cans or the trucks during collection, the vendor will pick up the litter);
3. Maintain a consistent route schedule (which is kept on file with the City) so that customers can expect their garbage to be picked up at approximately the same time each day of service;
4. Inform the City Manager or his/her designee of any event (including, but not limited to: equipment failure, manpower shortage, icy weather, and flood) which may delay the pick- up of solid waste by more than two (2) hours on any scheduled day;
5. Be responsive to customer complaints and concerns;
6. Treat customers with respect and with top priority; and
7. If an Applicant misses a pick-up, the Applicant will be required to provide documentation as to why the specific location was missed. If documentation cannot be provided within one (1) business day, the applicant must return within 24 hours to pick up waste.
8. Provides and requires professional uniforms and appearance for all personal that drive the truck and collect the solid waste.

Contractual provisions within any proposal requiring a longer advance notice of intent not to renew other than the 60 days stated herein, and/or financial penalties for non-renewal will not be acceptable to the City. Additionally, any “evergreen” renewal provisions contained in vendor-provided agreements to their proposal, beyond the four (4) year maximum term stated herein, will not be acceptable to the City. Re: Solid Waste Services

Dear Ms. Garcia,

AmeriWaste has reviewed the RFP for Solid Waste Disposal RFP#23-001P. There are several questions which remain open regarding the commercial waste portion of the RFP. We have provided commercial pricing in our responses and respectfully request that upon selection of our company that we are able to discuss the commercial waste pickup and disposal.

We have driven the City and reviewed the RFP and are “no bidding” the once per week service with monthly heavy trash and twice a month recycle.

We feel that our hybrid alternative will better serve the residents of the City of Richwood.

AmeriWaste is proposing a hybrid alternative for the City.

- Twice a week regular residential curbside trash service. The City would be divided into two zones with pickup on a Monday/Thursday and Tuesday/Friday schedule. Service would be limited to six (6) items per pickup day. Items would include cans or carts not to exceed sixty-four gallons in size provided by the resident, bags of sufficient strength to contain contents (green waste or household trash), and/or cut, tied, and bundled brush. All household waste is required to be bagged. The City would be responsible for the billing and collections of all residential services.
- Once a week residential curbside recycling services would be provided on Wednesday. AmeriWaste would provide a 48-gallon cart to each residential unit.
- Residential curbside bulky waste pickup will be picked up on each trash service day and be limited to 2 items per day. Items would include appliances in

compliance for disposal, furniture, and other miscellaneous items. A full listing will be made available for distribution to the residents.

- Light Commercial units would be serviced twice a week according to their location within the residential zones. Light commercial units are defined as not generating more than four (4) 64-gallon containers for refuse during a calendar week. The City would be responsible for the billing and collections of all light commercial services.
- Commercial units serviced via dumpster would be serviced up to six (6) times a week depending on volume generated. The required schedule and size of dumpster will be determined by the customer and AmeriWaste. AmeriWaste would be responsible for the billing and collections including all franchise fees as established by the City and sales taxes as applicable.
- AmeriWaste will provide the City with two (2) 6 yd dumpsters at sites to be specified at no charge.
- AmeriWaste will partner with Waste Masters of Texas to provide all roll-off and compactor services for commercial entities.

After contacting our vendors, AmeriWaste would need approximately 8 weeks to secure the necessary capital to perform the Solid Waste contract. After the awarding of the contract, we can negotiate a start date that would allow for a smooth transition with the commercial entities and time to educate all the residents regarding the new service guidelines.

We are available to meet with City officials to discuss our proposal and to negotiate a contract that would be beneficial for the residents, commercial entities, the City and AmeriWaste. We look forward to building a lasting relationship with the City of Richwood.

Cordially,

Jaclyn Hildreth
President
