PROPERTY IN THE OPEN - WHAT DOES IT MEAN?

By Mike Zagrodnik, CPCU, Baer Insurance

As we look through our schedules of coverage, buildings, contents, and contractor's equipment all seem pretty obvious and self-explanatory as to what these things are. But what the heck is "Property in the Open" and why should I care?

By MPIC policy definition Property in the Open means "Mobile or permanently fixed personal property designed to be left exposed to the elements and outside of any covered building." The mystery is solved, and everything is now clear – right?

One thing we've come to know about insurance is that the obvious is never obvious. Property in the Open covers a wide array of owned property that often is overlooked. In our parks, playground equipment, picnic tables, ball diamond fencing, backstops, and lighting all seem to be common items that receive scrutiny and scheduling. All well and good. However, there is so much more. Street signal lights, street signs, streetlights and poles, emergency sirens and poles, decorative lighting, planters, benches, monuments, flags, and poles, etc.

Individually many of these items may be valued at less than a \$1,000 deductible, but collectively? What happens when a serious windstorm destroys 10 streetlights, several signal lights, and street signs? A \$2,500 streetlight or pole might be manageable, but times 10 and throw in some signals and road signs, not so much. Who would think a concrete commemorative bench might be a \$6,000 event? So what do we do?

MPIC provides some measure of protection with \$10,000 for unscheduled property in the open. In a disaster under Section IV "Covered Property" should we be able to show we only

discovered we had the property or inadvertently left it unscheduled, there is a provision that might allow for scheduling the item back to inception and paying the associated premium to buy back up to \$250,000 of coverage. However, it's hard to argue you didn't know about your traffic lights and then inadvertently failed to schedule coverage. When buying coverage for a combined \$400,000, \$500,000, or less might result in an increase in premium of \$300–\$600 a year, why not spend a few minutes to think about those things we have that often are overlooked or marginalized to have the confidence we aren't going to be caught with a significant uncovered loss? MPIC and your agents are always available to assist with this or any other property insurance related questions.

Mike has almost 50 years of insurance industry experience, both on the agent and underwriting sides. This includes over a decade working with municipalities in Wisconsin.
