SUBJECT: Construction Permit Application – New Fiber Optic Facilities  
MH Telecom LLC/Mount Horeb Telephone Company

Dear Mr. Larson:

Enclosed for your review and approval is a permit application for MH Telecom LLC/Mount Horeb Telephone Company to bury new fiber optic facilities within the town limits of Ridgeway. This project is necessary in order to provide reliable broadband service to existing wireless customers as well as potential customers.

Included are the following for your review and approval:

1. Construction Sheets for the Town of Ridgeway
2. Location Map
3. Permit Application to construct along ROW

Buried boring and minor excavating activities will take place over the course of the project. The proposed fiber facilities will parallel the road ROW with a 3' offset from the edge of ROW wherever possible. In addition, the facilities will run along back lot lines and alleyways in several locations. Buried facilities will maintain at least 30" depth with most facilities maintaining 36" depth. All cable facilities will be in duct. Many road crossings will also take place over the course of the project. Road crossings will be at 42" nominal depth beneath the pavement. Orange 1.25" HDPE and/or multiple 1.0" HDPE conduit will be back-pulled through the completed bore followed by cable installation within the conduit.

Utility pedestals and composite concrete splicing vaults (30"x48"x30") or (24"x36"x30") with Tier 22 load rating will be placed at the ROW limit at locations shown on the enclosed construction sheets. Restoration will occur simultaneous with construction, which is scheduled to get underway July 17th or upon permit approval. All work and restoration is expected to be complete by November 30, 2023.

Please advise if there are any upcoming street improvement projects planned by the Village that would affect this installation.

If you have questions or need additional information, please contact me at 608-643-6477 ext. 114.

Sincerely,

A handwritten signature in cursive script that reads "Daniel Carroll".
