Good Afternoon Lori,

Attached, please find a copy of the Engineering Contract.

As discussed over the phone, please see the following summary for completing the WWTF Evaluation:

1. The Village of Ridgeway received a Notice of Noncompliance dated February 2, 2026 from the DNR for wastewater limit violations occurring in 2025.
2. Subsequently, Village Staff discussed needs at the Wastewater Treatment Facility (WWTF) with Delta 3 Engineering. Completing a WWTF Evaluation was recommended as the first step.
3. The WWTF Evaluation will further identify and prioritize WWTF needs for satisfying current and future permit limits.
4. DNR approval is required prior to completing any improvements at the WWTF and is also required prior to application of Clean Water Fund (DNR Grant/Loan) money.
5. Focus on Energy will reimburse \$5,000 toward the WWTF Evaluation and Energy Use Analysis
6. Proposed Plan:
 - a. Step 1 (2026) - WWTF Evaluation and Energy Use Analysis
 - b. Step 2 (2027) - Submittal of a Wastewater Facility Plan Report to the DNR
 - c. Step 3 (2028) - Submit Plans and Specifications as well as Clean Water Fund Application (DNR Grants/Loans)
 - d. Step 4 (2029) – Start Construction
 - e. Step 5 (2030) – Complete Construction

If you have any questions or need further information, please feel free to contact me. Thank you.

Jordan Fure, P.E.
