TRANS 220 PROJECT
PROPOSED HIGHWAY IMPROVEMENT NOTICE

RIDGEWAY VILL OF MUN WATER UTY
PO BOX 28
RIDGEWAY WI 53582-0028

RE: Design Project ID: 1204-00-30
Construction Project ID: 1204-00-60
DODGEVILLE - MOUNT HOREB
S JONES STREET BRIDGE B-25-37
USH 18, IOWA COUNTY

Design Project ID: 1204-00-31
Construction Project ID: 1204-00-61
DODGEVILLE - MOUNT HOREB
DODGEVILLE TO BARNEVELD
USH 18, IOWA COUNTY

The information in this letter is to satisfy the legal requirements of Wisconsin Statute 84.063 and Administrative Rule Trans 220. Enclosed are the following:

1. A map showing the general location of this project. This project is located in:
Sections 07 of Town 06 North, Range 05 East, Iowa County.
Sections 25, 26 of Town 06 North, Range 03 East, Iowa County.
Sections 11, 12, 13, 14, 15, 21, 29, 30 of Town 06 North, Range 04 East, Iowa County.
2. A copy of the *Concept Definition Report*, which provides information on the scope of the project.
3. A list of other utility facility owners and contact information. This list may be of benefit to you when coordinating with other utility owners in the area.
4. DT1077, *Proposed Highway Improvement Notice*. **Note: Complete the Notice Acknowledgement portion of the form.** Please make sure that you select one of the three options on this portion of the form. **Return the entire form within seven days of receipt.**

As noted on the DT1077, Trans 220 requires that you provide within 60 days a description of your facilities within the project limits. "Description" as used here generally means providing a copy of your system maps/facility records.

If these records and maps are stored electronically, we are capable of accepting copies of these facilities on a CD, on a disk, or via e-mail. The software your company uses will determine how we can accept your information. If you use a GIS-based system the information would need to be submitted on a CD or a disk. AutoCAD or MicroStation files can be sent via e-mail to me at the address listed below. If you have any questions about software compatibility or electronic file transfer, please contact me at the number listed below.

This project primarily adds a High Friction Surface Treatment (HFST) to the existing pavement and treatment to the existing bridge deck.

If you have facilities in the vicinity of this project, I'll be contacting you again with the DT1078, *Project Plan Transmittal*, which will be accompanied by plans approved for use in designing your facility locations. Months, or even a few years, may elapse before these final plans are sent.

I would like to thank you in advance for your cooperation and assistance in our project development efforts. If you have any questions about this project, please contact me.
