

Legacy Solar Co-op

Grant Writing Proposal Village of Ridgeway

Legacy Solar Co-op (LSC) is a member-owned cooperative helping Wisconsin businesses, homeowners, and community institutions develop high quality affordable solar and energy efficiency projects. Legacy Solar Co-op takes on the technical challenges and the complexity inherent in this industry and in this marketplace; we streamline the process, then give you the most distilled information so that you can make the best choice possible for your organization.

Scope of Work to include:

1. Coordinate planning activities surrounding Village of Ridgeway's sites for 2023 and 2024 solar project consideration;
2. Activities surrounding the application for an Office of Energy Innovation (OEI) Grant in December for submission before the January 2023 deadline:
 - Define existing energy planning efforts, education, and awareness
 - Define project description, objectives, metrics, outcomes, and stakeholders
 - Strengthen organization's eligibility and ability to achieve objectives
 - Define budget justification and cost share ("match")
 - List energy savings, payback and environmental impact
 - Provide proof of org's equity, energy justice and resiliency qualities

Cost of Services: Application Preparation for Grant Submission

\$2,500 (\$1,250 due at signing below, with \$1,250 due after service completion)

*with an additional Scope of Work (SOW) of \$2,500 if grant awarded**

* Legacy Solar Co-op's assistance in applying for this grant will require considerable follow-up activities after a grant is awarded to help the Village of Ridgeway get to a signed contract with OEI in 2023. We will help you procure a final set of proposals from qualified vendor/s once a grant agreement is in place to complete this project. LSC will only bill you for the second \$2,500 once you have been awarded this grant and/or if you sign a follow-up SOW document as notice to proceed as planned with the solar project(s).

Thank you for considering Legacy Solar Co-op's professional consulting services as you plan your solar future. Please sign below to allow us to start working on your project.
