Damage to resident pillar at 101 Ridge Run Court (Malcolm Stack Foundation). Dale Peterson (DPW) and Matt Humphrey (Malcolm Stack Foundation Caretaker) picked up the bricks that spilled all over after the Street/Park Truck, driven by Harry Johnson, pulled into Ridgevue Road to turn around and slid into the brick pillar due to ice cover on the road that you can see in the pictures. The pillar from the other side is still complete and pictured below for reference of what the other one looked like before the truck knocked it over. I told the caretaker/Matt to send the village the bill to rebuild the pillar. Work will likely be completed in the spring.
