

Fire Department—July, 2021

1. Engine 1-4 went to 411 to get some upgrades to maintain National Fire Protection Association (NFPA) compliance standards. It is back and in service.
2. Station 1 has been making sure all units are up to NFPA standards and equipment on Fire Apparatus is up to date.
3. The station met with our new medical director and have a very pleasant conversation she is looking forward to doing some trainings with us.
4. We are preparing for the winter months ahead by being pro active in apparatus, equipment upkeep and planning and placement of winter tools.
5. We have made conditional offers of employment to two (2) EMT candidates and are awaiting the background check reports.
6. We have provided backup assistance to the Code Compliance Officer in the weeks before and after the 4th of July holiday.
7. We have provided cleanup services on city streets and cleared major culverts that were clogged up by the flood of July 6th.
8. Lastly, we want to thank the Council and the city manager and all the city staff for their continued support.
