**Introduced By: Councillor James F. Burgess
April 14, 2025**

Resolution To All Residents of the Town of Randolph

Be it Resolved, that we, the residents of Randolph, acting through its duly elected Town Council, recognize that we are a nation of immigrants and new comers. And that our community, since its incorporation in 1793, is no different;

We recognize that during these times in our nation, it has become apparent that we reassure our population, native-born and newcomers, that Randolph will maintain our commitment to that all people should be respected;

That all services provided by the Town, from social services to public safety, shall continue to be delivered without distinction;

That all residents, both native-born and newcomer, should believe that they have a right to contact any local agency without fear; you should be aware of what's going on in our nation , but be not afraid to reach out to your local government, or any NGO should you have questions or require assistance.
