

§ 2.2 Data Centers

Data Center

A facility, or portion thereof, primarily designed or used to house computer servers and related information technology infrastructure for the storage, processing, management, or transmission of electronic data. A Data Center may include, but is not limited to, server racks, data storage systems, cooling systems, power conditioning equipment, substations, uninterruptible power supplies, backup generators, telecommunications equipment, security systems, and associated mechanical and electrical infrastructure.

A use shall be classified as a Data Center where either:

- (a) more than twenty-five percent (25%) of the gross floor area is devoted to server racks, stationary computing equipment, or associated mechanical or electrical infrastructure; or
- (b) the primary purpose of the facility, as determined by the Building Commissioner or designee, is the housing and operation of computer servers and related infrastructure, regardless of floor area allocation.

§ 4.7 Data Centers forbidden.

The operation of any Data Center, as defined in Chapter 200 of the Town of Randolph Ordinances are prohibited in all zoning districts of the Town of Randolph.
