Michelle,

Please convey to the Chair of the Planning Board that the Historical Commission, following our joint meeting with the Planning Board, met with our fourth member Elsie Gray, who was unable to attend the joint meeting, and after additional discussion voted unanimously that we support keeping the threshold for Demolition reviews and notifications at 100 years, and support extending the delay period for "Preferably Preserved" buildings, as defined in the Demolition of Historic Buildings Ordinance, from the present six (6) months to nine (9) months.

The Historical Commission as part of our own discussion relative to determining buildings less than 100 years old as historic per our authority as a Commission, will be pursuing a Survey and Planning Grant from MHC as well as a matching grant from the CPC to enable a professional preservation planner to update our list of "Century Buildings", and to also survey those buildings in the town that are less than 100 years old, but are architecturally, historically, or culturally significant, and that MHC forms be prepared for them and that they be logged into the MHC MACRIS database so that they may be updated on the GIS map. If approved, we would be carrying this plan out in the summer of 2023.

The Commission will also take under advisement the further suggestions of the Planning Board members about historical waysides, monuments, and other aspects of the natural or built environment that might be of historical significance and develop strategies for their preservation and appreciation by the wider community.

Respectfully Submitted
Henry Cooke, Chair
Historical Commission
Town of Randolph
