

April 20, 2023

Project Name: Yankee Line Bus Headquarters
Project Address: 34 Scanlon Dr
Randolph, MA 02368

Contractor POC: Adam Gray – Vice President – 978-375-4862

Construction Pest Control Plan

1. Engage a pest control service contractor to inspect site prior to demolition for evidence of infestation.
2. Remove existing refuse containers and clean area.
3. If determined place rodent traps sixty days before building and site demolition.
4. If determined maintain rodent traps during construction. Inspect and replace every thirty days.
5. Site will be maintained daily and debris will be disposed of in functional, locking containers which will be emptied on regular bases.
6. Once the building is enclosed, it will be secured daily. Any temporary enclosures will be maintained, and any voids will be treated with boric acid dust.
7. Proper daily disposal of all food discards will be enforced within the building and any temporary structures such as trailers, sheds, and storage containers.
8. All procedures will be posted.
