RESOLUTION NO. _____

A RESOLUTION WAIVING COMPETITIVE BIDDING REQUIREMENTS AND APPROVING THE PROPOSAL FROM ALTA EQUIPMENT COMPANY FOR A SIMEX PLC PLANER

WHEREAS, Section 7 of Article VII of the 1970 Constitution of the State of Illinois provides that a municipality that is not a home rule unit shall only have the powers granted to them by law and as such the City of Rochelle, Ogle County, Illinois being a non-home rule unit pursuant to the provisions of said Section 7 of Article VII, and may exercise only the powers expressly granted by law; and

WHEREAS, the Illinois General Assembly granted non-home rule municipalities broad authority to “pass all ordinances and make all rules and regulations proper or necessary, to carry into effect the powers granted to municipalities.” 65 ILCS 5/1-2-1; and

WHEREAS, while “non-home rule municipalities have the authority to enact ordinances, such ordinances may in no event conflict with state law or prohibit what a state statute expressly permits . . . A local ordinance may impose more rigorous or definite regulations in addition to those enacted by the state legislature so long as they do not conflict with the statute.” (*Village of Wauconda v. Hutton*, 291 Ill. App. 3d 1058, 1060 (1997)); and

WHEREAS, each year the City’s Engineering and Streets Department sealcoats and resurfaces areas of the roads that have deteriorated; and

WHEREAS, staff currently uses a seventeen-year-old planer to prepare the road surface by removing displacements and sections of pavement that have deteriorated to a point that sealcoating alone would be ineffective; and

WHEREAS, the 2024 budget includes funds to purchase a new cold planer attachment for the Streets Department; and

WHEREAS, Alta Equipment Company has provided the City with a quote for a new Simex PLC planer attachment in the amount of \$41,890, a copy of the Proposal is attached herein as Exhibit A; and

WHEREAS, the Proposal is within the budgeted amount of \$43,000; and

WHEREAS, the Simex PLC 30 is a self-leveling 30-inch cold planer with a hydraulic side shift feature and material discharge belt with speed adjustment. This cold planer attachment will greatly improve operational efficiency with a larger cutting drum and by discharging the milled materials to the right or left leaving behind a clean trench (specifications of the planer are attached herein as Exhibit B); and

WHEREAS, the City may waive competitive bidding requirements by a two-thirds vote of

the City Council pursuant to 65 ILCS 5/8-9-1 of the Illinois Municipal Code; and

WHEREAS, it has been determined by the Corporate Authorities of the City of Rochelle that it is in the best interest of the City and its residents to waive the competitive bidding requirements and accept the proposal of Alta Equipment Company for a Simex PLC planer.

BE IT RESOLVED BY THE MAYOR AND CITY COUNCIL OF THE CITY OF ROCHELLE, ILLINOIS:

SECTION ONE: That the City hereby incorporates all of the recitals above into this Resolution as if fully set forth herein.

SECTION TWO: The Mayor and City Council of the City of Rochelle hereby waive the competitive bidding requirements and approve the proposal of Alta Equipment Company attached herein as Exhibit A, for a Simex PLC planer in the amount of \$41,890. Furthermore, the Corporate Authorities authorize the City Manager and/or his designee to execute any documents as necessary to accept the proposal, subject to review and revision as to form by the City Attorney.

SECTION THREE: If any provision of this Resolution or application thereof to any person or circumstance is ruled unconstitutional or otherwise invalid, such invalidity shall not affect other provisions or applications of this Resolution that can be given effect without the invalid application or provision, and each invalid provision or invalid application of this Resolution is severable.

SECTION FOUR: Where the conditions imposed by any provisions of this Resolution are more restrictive than comparable provisions imposed elsewhere in any other local law, ordinance, resolution, rule or regulation, the regulations of this Resolution will govern.

SECTION FIVE: The City Clerk shall publish this Resolution in pamphlet form.

SECTION SIX: This Resolution shall be in full force and effect from and after its passage, approval and publication in pamphlet form as provided by law.

APPROVED THIS 11th day of March 2024.

MAYOR

Eric Crawford,

Thank you for allowing Alta Equipment to quote you on a new Simex PLC planer for your Bobcat T77 Skid Loader. There are a few sizes that are available. Please see below:

Simex PLC 30 with removal belt \$ 41,890.00

- Asphalt type teeth
- Independent left and right hydraulic depth adjustment
- Hydraulic side shift with universal couplings
- Removal belt to discharge material to the right or left of the trench

These units are priced as FOB at our Ottawa yard.
Some setup will be required at our shop.
This quote is valid for 30 days from the above date.

Thank You
Chris Mazzoni

Simex PLC self-levelling planers allows clearing the milled channel and to deposit extracted material on the right or left side. Thanks to the self-levelling system, milling depth is constant in any condition.

PERFORMER

Performer (Simex patented): allows the operator to optimize the equipment's performance according to the forward speed of the operating machine.

INDEPENDENT DEPTH ADJUSTMENT
on the right or left. Mechanical or hydraulic adjustment (optional).

Automatic tilt adjustment (Simex patented)

HYDRAULIC SIDE SHIFT
Used in central or lateral position, to the right side, for milling flush to the wall.

CONVEYOR BELT with speed adjustment

SELF-LEVELLING SYSTEM: CONSTANT PLANING DEPTH, ALWAYS (Simex patented).
Self-levelling to the work surface ensures constant milling depth in any condition, regardless of ground contour or the position of the attachment with respect to the prime mover. The planer lateral slides automatically align to the milling surface on which they rest to provide maximum stability.

HYDRAULIC MOTOR IN DIRECT DRIVE WITH THE DRUM.

REAR SCRAPER.

THE CONVEYOR BELT

The conveyor belt for PLC self-levelling planers becomes an essential asset for optimizing recovery of milled material for reuse on site, for transport or disposal elsewhere. Depending on regulations in force in the country of use, milled asphalt may be immediately reused on site for backfilling trench, or in general as material for road foundations.
