

AGENDA ITEM SUMMARY SHEET

City of Rollingwood

Meeting Date: January 21, 2026

Submitted By:

Staff

Agenda Item:

Consideration and possible action on approval of a Water Conservation Plan and a Drought Contingency Plan

Description:

In August 2024, City Council adopted Resolution 2024-08-21-09, which authorized the Mayor to engage in discussions with LCRA to secure water rights for 500 acre-ft/year, including preparation of the required LCRA permitting forms and attachments. Following that authorization, the Mayor procured professional engineering and surveying services to prepare the required LCRA permit application, perform the necessary City limits and boundary survey, develop maps and exhibits, and gather all other backup information required by LCRA. Two of those exhibits required updates to the City's Water Conservation Plan and Drought Contingency Plan, the current versions of which can be found under Divisions 2 and 3, respectively, of Article II of Chapter 103 of the City's Code of Ordinances.

In June, Council considered a draft of the application, but requested that corrections and improvements be made to it, and then brought back during this July meeting. This item allows Council to review, approve, and adopt the updated Water Conservation and Drought Contingency Plans, as prepared by the City's engineer.

Action Requested:

To approve Resolution 2026-01-21-09, and its attached Water Conservation and Drought Contingency Plans.

Fiscal Impacts:

None
