

**AGENDA ITEM SUMMARY SHEET**

**CITY OF ROLLINGWOOD, TEXAS**

**MEETING DATE: July 20, 2022**

**Agenda Item \_\_: Presentations**

**1. Presentation from K. Friese, ATS in regard to Building Code Questions - Agenda Item 6 from June 15 Council meeting - Brown memo dated June 13, 2022, as follows:**

**A. 1. Setbacks as applied to upper levels and cantilevered properties-**

a. Is the setback requirement applied only to the foundation or does it apply as well to an upper level (above foundation) wall or structure, or cantilevered structure above the foundation?

b. Who does the inspection and when is setback compliance inspected, both for the foundation and any upper level cantilevered portions of a building - only when the foundation is poured and/or at any time later in the building process?

c. Address these requirements as to the properties at 601 Riley and 3225 Park Hills.

**A. 2. Residential height limitations -**

a. Ord 107-71 seems to allow a height of any wall up to 35 feet, as it applies to any "portion of a building or structure". The Ord. 101-2 definition seems to allow any wall of a height up to 10 above 35 feet limit in Ord. 107-71 when the lot has a slope and the natural grade at the wall being measured is less than 10 feet below the highest natural grade. Do these requirements conflict and how are they applied?

b. When is height setback compliance inspected, and are reference datum independently verified before a permit is issued?

c. Address these requirements as to the properties at 601 Riley and 3225 Park Hills.
